### Pilot, Passenger Killed In Dutchess Plane Crash

The pilot of a twin-engine private plane and a passenger were killed this morning when the plane developed engine trouble and crashed on a farm at Pleasant Valley, Dutchess County.

Dutchess County Sheriff Lawrence Quinlan identified the victims as Joseph O'Neil, 41, of 97 Russell Avenue, White Plains, a well known instructor pilot, and Carl T. Kruse, 40, of 30 Dusenberry Road, Bronxville.

The ownership of the plane was listed under Cambridge Instrument Co. Inc., 420 Lexington Avenue, New York City, the sheriff's report said.

The bodies were removed to St. Francis Hospital morgue, Poughkeepsie for examination by Dr. William G. Thompson, acting medical examiner.

Sheriff Quinlan said observers on the ground reported the plane had circled a farm on Gretna Road near Salt Point Turnpike about 9:10 a. m., and apparently was having engine trouble. The plane crashed on the farm.

The farm is owned by Marshall Hewlett, the sheriff said. Authorities reported the plane left Westchester County Airport and stopped at Dutchess County Airport shortly before the crash. Sheriff Quinlan said the plane was demolished and members of his staff and volunteers of Pleasant Valley Fire Department experienced extreme difficulty in recovering the bodies.

Also investigating were the sheriff's chief investigator Charles Borchers and Deputy Sheriff Donald Holden Jr.

## Khanh Resigns Today As South Viet Chief

SAIGON, Viet Nam (AP) — Maj. Gen. Nguyen Khanh, a 37-year-old officer who seized power as leader of South Viet Nam last Jan. 30, resigned as president today.

Khanh resigned amid a wave of demonstrations throughout Viet Nam demanding an end to dictatorial rule.

A government source said Maj. Gen. Duong Van Minh, ousted by Khanh nine days ago, probably will be caretaker chief of state.

More than 20,000 cheering students converged earlier today on the presidential office building, shouting "Down with dictatorship."

A spokesman for Khanh, Deputy Premier Nguyen Xuan Oanh, told a crowd of marchers outside Khanh's office building that Khanh was stepping down and dissolving the junta he heads.

#### To Elect Premier

The junta of about 60 army officers will be convened tonight to elect a premier, who may be Khanh himself.

The junta then will dissolve itself. A new ruling council, made up mostly of entirely of civilians, will be organized at a later date.

The capitulation to the demonstrators' demands apparently did not mean Khanh was resigning all power. He still commanded the army and was chief executive of the government. But Minh definitely was back in the picture.

#### Demands Conceded

The government conceded nearly every demand posed by the political groups, students, Buddhists and military factions opposing Khanh.

The government pledged it would create mobile field courts to deliver "instant justice" to corrupt officials and elements of the defunct Cao Lao party of the late President Ngo Dinh Diem. Deputy Premier Oanh told The Associated Press, "a ruling council with the same powers as the present junta but made up of civilians will be created. The civilians will be picked from a broad spectrum of political parties and groups so as to be completely representative."

The government also abrogated the national constitution promulgated by Khanh nine days ago, which gave him sweeping powers.

The situation in Saigon was confused by the danger of immediate rioting in the capital apparently passed with the government's decision.

#### President to Have Nuclear Arms Say

By JOHN CHADWICK

ATLANTIC CITY, N.J. (AP) — A middle-road platform that largely reflects President Johnson's desire not to rock the boat goes before the Democratic National Convention tonight. Approval is expected, with no floor fight in prospect over any of the planks.

Members of the platform committee finished their work late Monday, turning out a document that for the most part affirms present administration policies and promises to improve and expand them rather than break new ground.

On the three issues that Republicans battled over at their convention last month — civil rights, extremism and control of nuclear weapons — the Democratic platform drafters drew clear-cut issues for the coming campaign.

#### Condemn Tactics

The Republicans, adhering to the wishes of Sen. Barry Goldwater, their presidential candidate, were silent on "extremism" and control of nuclear arms. But not the Democrats. "We condemn extremism, whether from the right or left, whether the extreme tactics of such organizations as the Communist party, the Ku Klux Klan and the John Birch Society," the Democratic platform says.

As for nuclear weapons, it declares that control over their use must continue to rest solely in the hands of the President.

#### On CR Issue

On the divisive civil rights issue, the Democrats wrote a plank that the Southerners on the platform committee said they could go along with and that one of them, Pierre Pelham of Alabama, called "something of a victory for the South."

It declares that "the Civil Rights Act of 1964 deserves and requires full observance by every American and fair, effective enforcement if there is any default."

The committee chairman, Oklahoma Rep. Carl Albert, said this means that if the comprehensive antidiscrimination measure is not complied with, it will be enforced.

#### No Mention of Legislation

However, the Republicans promised to support improvements in existing civil rights statutes to meet changing needs and any additional measure necessary to prevent unlawful denial of voting rights. The Democrats made no mention of new civil rights legislation.

The Democratic platform strongly condemns lawlessness "whether used to deny equal rights or obtain equal rights" and repudiates use of racial quotas in employment. Also, the platform committee was the rejection of a plank calling for enforcement of the 14th Amendment's provision for reducing a state's representation in the House in proportion to the number of its qualified citizens denied the right to vote.

## Kennedy Declares He's N. Y. Senate Candidate

NEW YORK (AP)—Atty. Gen. Robert F. Kennedy declared his candidacy today for the Democratic nomination to the U.S. Senate from New York, a nomination considered already in his pocket.

Kennedy formally began his first campaign for elective office at the side of Mayor Robert F. Wagner, the state's No. 1 Democrat.

#### At Gracie Mansion

The attorney general issued his long-expected announcement from Gracie Mansion, Wagner's official residence, and the mayor returned to the city from the Democratic National Convention at Atlantic City for the occasion.

Kennedy met head-on the issue of his residence: "I shall devote all my effort and whatever talents I possess to the State of New York. This I pledge."

If New York Democrats nominate him next Tuesday, Kennedy said, "I shall resign from the Cabinet to campaign for election."

#### After Keating Post

Kennedy seeks the seat occupied by Sen. Kenneth B. Keating, a Republican who has announced for re-election. Mrs. Clare Boothe Luce has said she might run as a Conservative party candidate for the same office.

The attorney general's wife, Ethel, was with him as he announced. "All that President Kennedy is trying to accomplish, all the progress that has been made, is threatened by a new and dangerous Republican assault," the attorney general said.

"No one associated with President Kennedy and with President Johnson — no one com-

mitted to participating in public life — can sit on the sidelines with so much at stake."

#### To Live on Island

Kennedy now lives in Virginia and maintains a voting residence in his native state of Massachusetts. He has negotiated for a home on Long Island to become a New York resident.

He cited past connections with

### Stratton Charges Callous Move by Big-City Bosses

ALBANY, N.Y. (AP) — Atty. Gen. Robert F. Kennedy's bid for the Democratic nomination for U.S. senator from New York State represents "callous and arrogant domination by big-city bosses," Rep. Samuel S. Stratton's campaign manager declared today.

George Palmer, Democratic chairman of Schenectady County, greeted the announcement by Kennedy with a pledge that "the nomination of a non-resident will be fought before the state committee, at the state convention, before the secretary of state and in the courts."

#### Nominee of Bosses

He termed Kennedy a "boss-dictated statewide nominee."

Stratton, a candidate for the senatorial nomination, was the front-runner before the attorney general—and a brother of the late president—arrived on the New York political scene.

The Stratton forces have announced plans to challenge Kennedy's eligibility to run from New York State, inasmuch as he is a resident of Virginia and

### Holding Up VP Choice Due to Dixie Seating Trying to Cool Off Two Fires Before Other Southern States Become Angry

By JACK BELL and HARRY KELLY

ATLANTIC CITY, N.J. (AP) — President Johnson's peace-makers worked backstage today in a new effort to shape the 1964 Democratic National Convention into an LBJ unity spectacular unmarred by Southern disharmony.

As part of this strategy to keep Democratic ranks intact, the President was reported hesitating over the possible choice of Sen. Hubert H. Humphrey as his running mate because of evidence of Dixie opposition.

As the convention went into a second day it still faced smoldering disputes over the seating of the Alabama and Mississippi delegations.

#### Aims at Cooling Off

Johnson, who has said he wants all the people of the nation to unite under his tent, was trying to find a way of cooling off these two fires before they erupt into a floor fight and perhaps anger other Southern states.

The rebel Alabama delegates who refused to sign a pledge to support the party's nominees were told to surrender their credentials.

Only 13 members of the delegation — 6 delegates and 7 alternates — have signed the pledge but Monday night all the Alabamians brushed past guards and took their seats anyway.

#### Asked for Passes

When they returned to their hotel, a telegram was awaiting them from David Lawrence, chairman of the Credentials Committee, asking them to surrender their passes.

There was no immediate decision whether they would.

As the President held back on his decision on a running mate, one of the men he vetoed for the job — Atty. Gen. Robert F. Kennedy — announced finally and formally he was entering the New York Senate race.

At his side when he made the announcement in New York was Robert F. Wagner, the city's mayor, and the state's top Democrat.

Minnesota's Humphrey, who was everywhere doing everything he could to prevent any incident that would mar the unity that Johnson wanted achieved, was the consensus choice by leading Democrats for the place. But individually and collectively they conceded they don't have an inkling of Johnson's thinking.

Some dissent to the choice of Humphrey had been communicated to Johnson, lending credence to reports that he still had not made up his mind despite the relatively late hour.

Gov. Carl Sanders of Georgia, on whom Johnson has been leaning heavily in his efforts to salvage part of the South in the November election, said in an interview he had told Johnson at a White House conference Saturday he thought Sen. Eugene

J. McCarthy might be a better choice from the South's standpoint.

"Understand me," Sanders said, "I raised no objections to Sen. Humphrey. But I said that I believed McCarthy was not as well known and his views were not as well known in the South and that he might be a better candidate."

#### McCarthy in Race

McCarthy, a Roman Catholic, has been regarded as one of the top contenders for second place on the ticket. He and Humphrey have paralleling strong views in favor of civil rights, but Humphrey's have been well publicized and McCarthy's have not.

Every maneuver at this convention has pointed toward a Johnson effort to placate dissident forces and emerge with his first presidential nomination with a relatively united party behind him.

Tonight, the convention is expected to give shouting approval of what in its essentials is a middle-of-the-road platform promising sturdy accomplishments toward peace and prosperity but detouring controversial issues such as civil rights.

#### Race Issue Skirted

The Mississippi fight between a white delegation chosen with the understanding it would oppose the national ticket and the Negro-dominated Mississippi Freedom Democratic Party remained to be settled, possibly by a floor vote.

But the flurry over the appearance on the floor at Monday night's session of members of the Alabama delegation who refused to sign a loyalty pledge was not regarded as likely to burrow into any federal case.

The feeling among convention officials — and this applied to both the Alabama and Mississippi contests — was that there would not be any roll calls so what did it matter who was designated to cast votes that wouldn't be registered?

#### No More CR

The Mississippi fight, as approved by the platform committee, pledged "fair, effective enforcement" of the 1964 Civil Rights Act without promising to sponsor any new legislation of this type. But the Democrats' state laws cannot and will not tolerate lawlessness.

The Republicans had promised in their platform "full implementation and faithful execution."

Today's Business Mirror

By SAM DAWSON

NEW YORK (AP) — The New York Stock Exchange figures there are about 50 of the nation's banks large enough to meet its requirements for stock listing. Only a few have shown interest so far, and only one has applied. For the time being, the stocks of most will continue to be traded over the counter.

Part of the roadblock is hesitancy by the banks themselves and part is a battle over rules governing trading in stocks of nationally chartered banks.

The reason the stock exchange thinks banks, as well as many other large corporations, may now seek listing is the signing into law last week of the Securities Acts Amendments of 1964. These require large firms to publish more complete financial information than most of these unlisted ones now do, and thus would bring them close to meeting rules laid down by the exchange itself.

Large unlisted industrial corporations from now on will have to file the newly required information with the Securities & Exchange Commission, banks with the federal regulatory agencies, and insurance companies with their home state insurance commissioners.

But Comptroller of Currency James J. Saxon, before approving listing of national banks, wants the New York Stock Exchange to make exceptions in some of its trading rules to favor bank stocks.

One demand is for more disclosure of the activities of specialists making a market for bank stocks than is required of specialists in industrial stocks. He also wants bank stocks to

be traded both on the exchange and over the counter. And he doesn't want trading in bank stocks halted temporarily to match orders, as in the case of industrial stocks in a trading rush, lest the delay alarm nervous depositors.

But Saxon's approval isn't a concern of state chartered banks. And the nation's state-chartered largest, the Chase Manhattan Bank of New York, has applied for listing.

At present four bank holding companies and some savings and loan associations are listed on the exchange, but no commercial bank has been since 1954. In that year the only one, Corn Exchange Bank & Trust Co. of New York, went off the exchange to merge with an unlisted bank. The name has since been changed to Chemical Bank New York Trust.

Banks have been shy of listing for several reasons. One is the rule for information publication beyond that required by banking regulations. Another is that over-the-counter trading offers less publicity to the ups and downs of stock prices, and that bank stocks can be sold over the counter by both securities firms that are members of the exchange and those that aren't.

Plattekill to Air Dump Ordinance

Amendments to the Town of Plattekill disposal ordinance will be aired at a public hearing scheduled for Monday, Aug. 31, at 8 p. m., Hasbrouck Hall, Modena.

Proposed changes call for an assessment of \$50 a year in the form of a permit fee to all commercial garbage collectors using the town dump. Private individual residents using the dump will be excluded from the fee, it was reported.

It is also proposed to change the disposal ordinance to prohibit commercial collectors from bringing in waste material from outside the town and depositing it in the town dump.

The dumping area, in addition, would be open only Monday through Saturday from 9 a. m. until noon, and a fence would be erected in front of the dump. Anyone dumping garbage or other waste material near the fence would be subject to a fine of \$50.

ELMIRA, N.Y. (AP) — When Recorder's Court officer Leo Rohde (cq) called out the name "Gerald L. Smith," two men stepped forward.

There was no mistake, and the two Smiths — no relation — had more in common than their names.

Each had been charged with passing through a red light in Elmira the same day. Each was fined \$20.

NEW YORK (AP) — The New York Stock Exchange figures there are about 50 of the nation's banks large enough to meet its requirements for stock listing. Only a few have shown interest so far, and only one has applied. For the time being, the stocks of most will continue to be traded over the counter.

Part of the roadblock is hesitancy by the banks themselves and part is a battle over rules governing trading in stocks of nationally chartered banks. The reason the stock exchange thinks banks, as well as many other large corporations, may now seek listing is the signing into law last week of the Securities Acts Amendments of 1964. These require large firms to publish more complete financial information than most of these unlisted ones now do, and thus would bring them close to meeting rules laid down by the exchange itself.

Large unlisted industrial corporations from now on will have to file the newly required information with the Securities & Exchange Commission, banks with the federal regulatory agencies, and insurance companies with their home state insurance commissioners.

But Comptroller of Currency James J. Saxon, before approving listing of national banks, wants the New York Stock Exchange to make exceptions in some of its trading rules to favor bank stocks.

One demand is for more disclosure of the activities of specialists making a market for bank stocks than is required of specialists in industrial stocks. He also wants banks stocks to

## Kennedy Plans Unexpected Visit Today at Democratic Convention

By JAMES DEVLIN  
Associated Press Writer  
ATLANTIC CITY (AP)—U.S. Atty. Gen. Robert F. Kennedy agreed to follow up announcement of his Senate candidacy in New York by paying something of a surprise visit today to this seashore site of the Democratic National Convention.

### Grand Jury Will Hear Two Guards

SYRACUSE, N.Y. (AP) — A grand jury will look into the case of two part-time guards who were fired as a result of an investigation into alleged disrobing by women prisoners at the Onondaga County jail.

Dist. Atty. Francis R. Moran disclosed Monday that the men were discharged following a complaint by an 18-year-old inmate that she and another woman took off their clothes in return for promises from the guards.

The nature of the alleged promises was not revealed. The guards, John Kessler of Solvay and George LaPorte of

Expected Thursday  
It generally had been expected that Kennedy would not come here until Thursday, when the convention will pay a special tribute to his brother, the late President John F. Kennedy.

However, Wagner said he decided to give a reception for the attorney general today, from 5 to 7 p.m., in the Ritz Carlton Hotel, headquarters of the New York delegation.

New York's earlier-than-planned visit leaked out when some delegates who had received engraved invitations to the Kennedy reception showed them to reporters.

Syracuse, denied the girl's allegations. Moran said the case would be turned over to the grand jury convening Sept. 8.

Moran said Miss Carolyn Nappa, 18, of Syracuse, told him the two guards gave gin to her and Miss Kathleen Brown, 20, whose home is in a Syracuse suburb. Miss Nappa said the two women undressed in return for promises from the men, he reported.

Moran said Kessler admitted having passed gin to the women and having seen one woman nude. But he denied having anything to do with her disrobing, Moran said.

Rep. Samuel S. Stratton, of Amsterdam, who has vowed to fight Kennedy for the Senate nomination at the party's state convention in New York City next Tuesday, is on the scene as a national convention delegate.

Stratton has been mixing freely at caucuses with fellow New Yorkers, a number of whom will be delegates to the state convention.

There was no indication whether Kennedy, who resigned two days ago as a Massachusetts delegate, would attend any sessions of the national convention as a spectator before Thursday.

William H. McKeon, New York Democratic state chairman, was asked whether Kennedy might be seated in the New York delegation.

"I don't think he will make that request," McKeon said. Kennedy has not yet changed his voting residence from Massachusetts to New York. He was reported Monday to be planning to move into a residence at Glen Cove, in Nassau County.

The 405-member New York delegation, which will cast 179 votes, jammed into the huge but packed Convention Hall Monday night for the first convention session.

At a caucus Monday, the delegates chose Edwin L. Weisl, 65, New York corporation lawyer and a friend of President Johnson for more than 25 years, as the state's national committee-

man. Weisl succeeds Carmine G. De Sapio, one-time chief of Tammany Hall (the Manhattan Democratic organization) and a former political power in the state.

Another caucus was scheduled for tonight.

**Mechanics Slate State Convention At Gov. Clinton**  
Charles DeWitt Council No. 91, Junior Order of United American Mechanics in Kingston will be host to the 92nd annual convention of the New York State Council to be held at the Governor Clinton Hotel Sept. 14 and 15.

Announcement was made by Charles M. Lord, recording secretary of the local council. The two-day business session will open 9:30 a. m. Sept. 14 with Mayor John J. Schwenk welcoming delegates and guests. Registration will start in the hotel lobby in the afternoon of Sunday, Sept. 13 and will continue to Sunday evening.

A reception for officers, delegates and ladies in the Gov. Clinton will be featured 5 to 7 p. m. Sunday.

The banquet program will be served in the hotel Monday evening, Sept. 14. Edwin B. Schultz, councilor of the local group has arranged a program of entertainment for the visiting delegates and their friends.

Reservations for the banquet will be made on arrival when registering with the credential committee.

LAKE PLACID, N.Y. (AP)—The New York-Vermont Interstate Commission on the Lake Champlain Basin has given its annual INCOCHAMP (all caps) merit award to Elmer E. Towne of Montpelier, Vt.

Towne, a dairy farmer and former Vermont agriculture commissioner, was cited Tuesday night for developing a speed crop for the Lake Champlain area.

INCOCHAMP is an abbreviation for the name of the commission, which opened a three-day conference here yesterday.

### Favors Unifying Five Railroads

WASHINGTON (AP) — An examiner has recommended that the Interstate Commerce Commission approve the unification of five railroads into the nation's largest system — nearly 25,000 miles.

The proposal approved Monday by examiner Robert H. Murphy calls for the merger of four lines — the Great Northern Railway, the Northern Pacific Railway, the Chicago, Burlington & Quincy Railroad and the Pacific Coast Railroad — and a 10-year lease on the Spokane, Portland and Seattle Railway.

If approved by the full commission, the combined system — to be known as the Great Northern Pacific & Burlington Lines, Inc. — would have assets of more than \$2.6 billion and annual income of more than \$775 million.

Murphy said the system would be the largest railroad in the United States in terms of miles of road and geographic

distribution, and the third largest in annual revenues.

He recommended a number of conditions that would require maintenance of open routes, gateways and channels of trade; the opening of important new gateways to competing railroads; and protection of adversely affected railroad employees.

Murphy's recommendations were denounced in Cleveland, Ohio, by H. E. Gilbert, president of the Brotherhood of Locomotive Firemen and Enginemen, who called the decision "another victory for monopoly interests."

"The recommended merger," Gilbert said in a statement "would be a surrender to the financial interests that seek greater profit from minimum service, jobs will be cut by at least 30 per cent and many communities will find themselves with either no rail service or relegated to branch line status."

### Psychiatrists Differ in Murder Case Testimony

PHOENIX, Ariz. (AP) — The murder trial of Herbert Shockey, accused of killing a Sherrill, N.Y., couple is moving into its closing stages amid conflicting testimony by psychiatrists.

Indications were that the case might go to the jury today or Wednesday.

As the trial entered its third week Monday, the prosecution put a rebuttal witness on the stand to counter testimony by defense doctors who said they believed the 30-year-old ex-convict was mentally deranged.

Dr. Aaron H. Canton contended that tests given to Shockey by Dr. Ben Mortensen were of practically no value because, he said, they were administered improperly.

But another witness, Dr. Thomas F. Krueh, said he thought Shockey was a schizophrenic who "knew the difference between right and wrong... but couldn't utilize this knowledge because of a delusional state."

The defense contends Shockey should be found innocent, by reason of insanity, of the slaying of Mr. and Mrs. John Ber-

tella. Their bodies were found Feb. 24 in the Superstition Mountain region near Apache Junction, Ariz.

Canton said that, after reviewing the tests given by Mortensen, his opinion was that Shockey probably was pretending to be insane.

An earlier witness, Dr. Maier Tuckler, said he had examined Shockey twice and believed that Shockey might not be mentally

defective. He said Shockey gave answers that showed he was familiar with legal and medical interrogation and was able to cope with it.

Last week, a former cellmate of Shockey at the Maricopa County jail testified that he coached Shockey on how to answer psychiatrists' questions in order to appear insane.

If convicted, Shockey faces a possible death sentence.

Breaking away from all conventional ideas, and without compromise, engineers have developed a car which perfectly matches their idea of optimum driving performance and maximum safety. The car is full of new technical ideas.

Three examples:

Body: An all-steel body of light-weight construction with integral arranged struts provides increased safety.

Engine: Inclined by 30°, with a 3-bearing overhead camshaft and inclined valves provides higher output and increased durability.

Suspension: The combination, for the first time, of spring leg front axle with rear wheels suspended from longitudinal arms provides unrivalled road-holding performance.

The car combines sports car performance with the luxurious comfort of expensive limousines. It is a car without parallel. It represents a new class of vehicles.

WELCOME TO CLUB, COMRADE

This month marks the fifth anniversary of what for Communist Russia has been a Great Experiment—installment buying.

It was in 1959 that Khrushchev and Co. decided to introduce consumer credit (one Western invention they have not yet claimed as their own). According to Radio Free Europe observers of Soviet society, its growth has been steady, if not phenomenal.

Volume of credit sales tripled between 1960 and 1963. Last year, citizens bought more than \$2.3 billion worth of goods on credit, including some 1.5 million television sets and radio-phonographs, 170,000 radios, 91,000 cameras and 3,000 movie cameras.

Credit terms are lenient: 25 per cent down and up to six months to pay at 2 per cent interest. The money goes to the state and supposedly covers only the cost of the goods and administrative charges, since it is against Marxist philosophy to add interest and carrying charges to the value of goods. (The state gets its profit from a retail sales tax.)

The number of articles available is increasing and there is even talk about letting local authorities, who are closer to regional markets and consumer needs, decide which articles should be sold on credit. If they keep it up, one of these days the people will be running the country.

A THORN IN THE SKIN

Editor Edith Boutwell of the San Diego, California Senior Citizen News has a gripe which may be representative of a thorn in the skin of many people—namely, the Poverty project.

She observes, "Why not call it 'The living improvement plan'? The word poverty in itself carries a negative thought, it cheapens society to so phrase it. Insert the word improvement, and there is a meaning of positiveness which is vital to our thinking."

This is a constructive idea. Publicizing poverty in the United States downgrades us in the eyes of the world. A program for "improvement" offers hope and progress, a chance to be somebody in the community, not a cipher, not a charity case, not just a common man.

Mrs. Boutwell has cast a thought upon the sea of ideas. It is to be hoped that it may return many folds in the form of affirmative action. This country deserves to be presented to the world as a land of success rather than despair.

WHAT NEXT?

A funny thing happened in the business world the other day.

Two business men transacted a rather important business deal by the simple procedure of one business man calling on the other business man in his office at 10 o'clock in the morning.

By 10:25 o'clock the deal was all wrapped up and the first business man was on his way back to the office.

They didn't go to lunch to talk it over. They didn't play a round of golf to button it up. They just met in an office during working hours and talked business.

Amazing.

Hundreds of thousands of people now are collecting coins. Bill collectors prevent others from taking up the hobby.

TODAY AND TOMORROW

On his 94th birthday, Bernard M. Baruch gave tongue to some words that go far to explain his long years of good health and mental sharpness. "Today and tomorrow," he said, "concern me more than yesterday. The future holds out infinite promises for the perfection of democracy and for the improvement of life."

Baruch has not lost the precious gifts of curiosity and interest in life. He wants to know what the next turn in the road will reveal. He could look back and pine for the days that are gone, the days before income taxes and cold wars. He prefers to look ahead.

By JOHN CHAMBERLAIN  
OUR COMFORT VALUE  
IS THE BEST BY TEST

ATLANTIC CITY—This convention, at least in its early stages, has the quality of strained baby food. The blandness, Lyndon Baines Johnson, has prescribed the master—and only a few mavericks from Mississippi and Alabama, plus Joseph L. Rauh Jr., the Adairer who is acting as General Counsel for the Mississippi Freedom Democratic Party, have had the temerity to act up at all.

The blandness is all over the boardwalk. Atlantic City has been described as "Republican" in tone, and it is true that much of the local architecture is a holdover from the age of Calvin Coolidge. But the thousands who march up and down and stare with wonder at the sea look no more like Coolidge Republicans than any crowd at the Yankee Stadium. They buy papers from the Williams-Barre, they watch their kids riding toy autos on magnetically guided tracks, and they act so universally like the vast "center" of American life that Goldwater would win in a walk if it were what it takes to make Atlantic City "Republican." A more likely suspicion, of course, is that a majority of them are ever so blandly democratic.

The blandness extends to the people who ought to be partisan for one or another of the vice presidential hopefuls. If anybody has had the ebullience to wear a vice presidential button, it has escaped this reporter's eye. The Hubert Humphrey people say it's "98 per cent sure" for Humphrey, but if it's someone else they won't raise a peep. A current theory, as I write, is that Johnson, pursuing blandness to the last inch, will pass over everybody who has been mentioned for vice president and nominate General Maxwell Taylor, the Ambassador to South Vietnam, to run with him. Taylor is politically neutral, and is just as far away from this convention as Henry Cabot Lodge was far away from New Hampshire and Oregon. He might make a good vice president, but he would be the ultimate as a convention pacifier, here could be no hard feelings among Humphrey, Eugene McCarthy, Tom Dodd, Pat Brown, and Bob Wagner if LBJ were to pass over all the political pros to pick a military man.

Blandness is all over the platform, too. The Democrats point with pride to Kennedy's stance in the Cuban missile crisis, but there just isn't nuthin' about the Bay of Pigs. There's something alleged that out of thirty-one African nations formed since World War II, "not one has chosen communism," but there's nothing about the millions of bucks which this country put up to get Tshombe out of the Congo and on the strange circuit that brought him back to the Congo a year or so later. There's something about forcing Khrushchev to forego a peace treaty with East Germany, but the platform doesn't explain the rise of the Berlin Wall. No democrat will ever complain that the man who dictated the planks on foreign policy is trigger-happy; he just wants everybody to remain calm, calm, calm.

The note of blandness sounds insistently in the economic sections of the platform. After a thousand days of John F. Kennedy and some nine months of Lyndon Johnson, wholesale prices are lower than they were in the days of Ike Eisenhower's blandness. The balance of payments against the U.S. has been cut to \$2 billion a year, and the gold drain has stopped. There are 72,000,000 people at work in this country, an increase of 3,900,000 over 1961. And one out of every ten persons in the country is getting a monthly social security check.

From Goldwater's standpoint, the worst of this economic blandness is that it is all so true. Poverty may exist in Appalachia, but the boardwalk types make empty stomachs seem very far away.

There's even something for everybody in the Civil Rights part of the platform. Oh, yes, the Civil Rights Act is the "greatest Civil Rights measure in the history of the American people." But the Democratic party pledges that it is "equally firm in opposing any policy of quotas or discrimination in reverse," and all other arbitrary or irrelevant distinctions in American life. "Irrelevant distinctions" is open to almost as many interpretations as "extremism in defense of liberty," etc.

As Ted Lewis, the old bandleader of the nineteen twenties and thirties, used to say, "Is Everybody Happy?" You bet. And if there are any of Eisenhower's "sensation-seeking columnists" in Atlantic City, they will be reduced to interviewing sharks.

Dilated Lung Airways  
Cause Mucus to Collect

By WAYNE G. BRANDSTADT, M.D.  
Newspaper Enterprise Assn.

Q—What is bronchiectasis? Is it contagious? What is the treatment?

A—Bronchiectasis is a chronic disease in which the smaller airways in a part of the lung have become dilated and have lost their elasticity. As a result infected mucus collects in these airways and is hard to cough up. The disease is not contagious although it may occur as a complication of a contagious disease such as measles, whooping cough, pneumonia or influenza. In some victims it is caused by inhaling a foreign body.

The disease is very difficult to cure but antibiotics may help. The victim should practice postural drainage two or three times a day by lying across the bed with his head near the floor. This facilitates coughing up the accumulated secretions. Surgical removal of the diseased portion of the lung is often the only means of curing this stubborn disease.

Q—What is the cause of necrotizing arteritis? Does this disease develop suddenly or gradually? What are the symptoms and is there any cure?

A—This disease (also called periarthritis nodosa) may develop gradually or suddenly, usually in persons between 20 and 40 years of age. It is characterized by nodules in the smaller arteries. The cause is unknown. Since it may involve arteries in various parts of the body, the symptoms depend on the part affected. Often there is a low fever, loss of appetite and easy fatigability.

If the kidneys are involved the blood pressure may be high and there may be albumin in the urine. In some victims there are abdominal pains and bleeding from the digestive tract. In others there may be shortness of breath or asthma-like wheezing. If the heart is involved the pulse may be fast and there may be waterlogging of the ankles. Pains in the muscles and joints are common symptoms and painful nodules may be felt in the small blood vessels of the skin.

The outlook is not as hopeless as it was before the discovery of cortisone and related drugs. Although these drugs do not cure the disease they can relieve the symptoms and prevent further development.

Q—My doctor wants me to quit smoking because I have asthma. Will Bantron help me?

A—Bantron is a combination of lobeline and antacids. Some authorities believe it helps their patients to quit smoking but the best evidence suggests that a firm resolve to quit is more dependable than any drug.

## "Go Away, Boy, You Bother Me!"

## Washington News

By BRUCE BLOSSAT  
Washington Correspondent  
Newspaper Enterprise Assn.

ATLANTIC CITY, Aug. 24 (NEA)—Democratic leaders, steering their 1964 convention cautiously, may have put Sen. Barry Goldwater's "southern strategy" in jeopardy for the second time in nine months.

This strategy, rooted in the idea Goldwater can win most or all of the Old South's 128 electoral votes this fall, collapsed last November when President Lyndon B. Johnson, southerner, succeeded the slain John F. Kennedy.

The notion enjoyed no more than a shaky revival until the Republicans nominated Goldwater for president at San Francisco, whereupon it shot up like corn in a humid July. Southerners took fresh hope he might win, with their help, and reverse the tide of Negro advances on the civil rights front.

Goldwater still rides very high in the South as heavy campaigning approaches. In many quarters, broad inquiry discloses, it is distinctly out of fashion at the moment to mention any name but his.

Yet here in Atlantic City a base has been laid for making Johnson not merely mentionable but a possible winner in much of the South.

There were grave dangers, the President and his strategists seem to have skirted them. The Keys to This Careful Navigation:

1. A civil rights plank which makes no promises of major new legislation, but instead allows the South, in the words of Florida's Gov. Farris Bryant, to "take a deep breath" after witnessing passage of the most sweeping civil rights law in history.

2. A soft-stepping approach to the noisy Alabama and Mississippi seating disputes which, first evidence suggests, will not be read by the whole South as another stiff, blow to its pride but accepted instead as fair dealing.

THIS REPORTER'S canvass of leaders in nearly every Old South state indicated their firm general conviction that these things had to be managed or they could not hope to mount an effective campaign to "get the South back" from Barry in the week ahead.

The loyal LBJ southerners are getting what they wish. They now can ask their voting friends to "live with" the temperate attitudes exhibited by their national party under the tight guidance of Lyndon Johnson.

In Texas, Louisiana, Arkansas, Tennessee, Georgia, North and South Carolina, test findings among knowledgeable political figures disclose far livelier prospects for the President than Goldwater's lead in Virginia and Florida—both in the GOP column in the last three presidential elections—may not be surmountable.

Alabama and Mississippi, despite this convention's avoidance of a harsh rebuff to their disputed regular delegations, were largely locked up for Goldwater before Atlantic City.

Nothing else in the South is conceded by top Democrats today.

IN GEORGIA, where an expert's two-week swing through the state turned up heavy Goldwater sentiment, the word from him nevertheless is: "Things will change when Senator Talmadge and Senator Russell begin working, as they will, for Lyndon."

South Carolina's Gov. Donald Russell and Sen. Olin Johnston will be doing the same, though

with no aid from Sen. Strom Thurmond.

A TEXAS OBSERVER, scanning territory long prized by Goldwater as fertile for him, predicts just the same that native son LBJ will take it in a near sweep.

Louisiana politicians at middle level dare to suggest Johnson will capture the state despite coolness from Gov. Allen McKeithen and Senators Allen Ellender and Russell Long. New Orleans could provide a good lift.

Counted on to be finally persuasive in these and some other southern states is not simply Johnson the southerner, but Johnson the leader of a political party which stands in the South for farm subsidies, welfare, boosts for education, and other aids to the many needy folk who could express their economic interest resoundingly at the polls.

### The Democratic Platform And Trigger on A-Arms

BY DAVID LAWRENCE

ATLANTIC CITY—Platform planks may be tossed aside by some citizens in our country as just so much verbiage, but foreign governments—both friend and foe—are accustomed to reading between the lines of any foreign policy pronouncement from the United States. They are anxious to determine whether America will stand up resolutely or procrastinate in an emergency and thus unwittingly give an adversary a big advantage.

A developing issue which has crept into the political campaign involves a possible land invasion of Europe some day by Communist armies. Sen. Goldwater thinks that, to meet such a contingency, the supreme commander of the North Atlantic Treaty Organization—usually an American—should be given in advance authority to use small tactical nuclear weapons when circumstances require it.

This is one reason why the platform plank adopted here will be construed as a turnaround of the simple proposal advocated by military experts that the American supreme commander in NATO be given in advance authority to use small tactical nuclear weapons when circumstances require it.

The fear has been that, if it is widely known that NATO armies cannot immediately act in response to an attack but would have to wait for a long discussion in Washington to yield a decision on the question, then there would be danger of being overrun by an advancing enemy. A time lag of two hours could mean the difference between victory and defeat. Hence, it is urged that the field commander in chief be allowed to respond instantly by using tactical weapons with small nuclear warheads.

The Democratic national platform is vague on the whole subject, which is an indication that the politicians wish to remain noncommittal on the issue and still accuse their opponents of trying to start a nuclear war, when in truth the basic question is whether the Soviets shall be given virtual immunity from any nuclear response if they try to seize Berlin and West Germany and march across France with their huge armies.

The solidarity of NATO as an alliance is at stake. It has been hoped that the Administration would issue some pronouncement, even during a political campaign, that would dispel the fears of the Western European countries.

The Russians, of course, are watching the whole performance with penetrating interest. The Moscow news agency dispatches keep emphasizing that Sen. Goldwater and the Republicans are pursuing "brinkmanship" in foreign policy. Yet it was the "brinkmanship" of an American Secretary of State, the late John Foster Dulles, which deflated many a crisis in which the Communists had sought to test American resoluteness. They were averted promptly, and war was averted. It is the same formula that now is being urged on both parties by military men, who have no political axe to grind and who are concerned solely with the prevention of a major war.

## Do You Remember by Sophie Miller

The other day, Mrs. Horace (Mabel) A. Jones of 191 Hurley Avenue brought in to show me a very interesting photograph, of many people. Men were Shriners, and the ladies were dressed as for a going away party. It looked like several hundred people, and in the center is a large Cyprus Band drum. I found in the Kingston Freeman and Journal of Friday, Aug. 22, 1913 that the Shriners were having two clambakes to be held at Poughkeepsie. One Sept. 4, the other Sept. 10. It said that the first bake was to be under the supervision of the Kingston Shriners' Association and to be held at Kohl's Lookout Farm at Poughkeepsie.

It told how the members of the local chapter were to assemble at the Eagle Hotel at 9:30 a. m. (where the County Office Building is looming so high in 1964). From the Eagle Hotel they were to make a short parade to North Front and Wall Streets, where they were to board cars for Rondout and embark on the steamer, Bunker, for Poughkeepsie. The Saugers band went along, and President Christopher K. Loughran and his committee were in charge.

The second bake on Sept. 10 was to be held by the Cyprus Temple of Albany, of which most of the local association were members. This also was to be held at Lookout Farm and proprietor Kohl was guaranteed 500 plates. They were to leave Albany on a special train on the morning of the 10th, and the local group was to board the train at Rhinebeck. (That was in the days before the Rhinebeck-Kingston Bridge, which goes from nowhere to nowhere. In those days the ferry from Rondout took us gladly to the New York Central trains on the other side of the Hudson, and brought folks over here for social events and shopping.)

This bake was to be very special as the Shriners were requested to bring their mothers, wives or sweethearts along. Tickets were secured from Ward B. Everett, Both bakes were for Shriners only and the ladies were invited only to the Sept. 10 one.

This picture may be of interest to many Kingstonians as it has some 175 people in it, and notices nearly each one has a mug in his or her lap. It so happens that some years ago, Attorney Henry Klein, many years a Shriner, gave my father a mug with the words "Clambake, Lookout Farm, Poughkeepsie, N. Y." and it also has a very decorative Shriner emblem. I still have that mug. No doubt, if Attorney Klein will see this picture he will recognize many prominent men and women in it. I am quite sure that I recognize Aaron Cohen, his sister, the late Mrs. Marblestone, and another lady of the family.

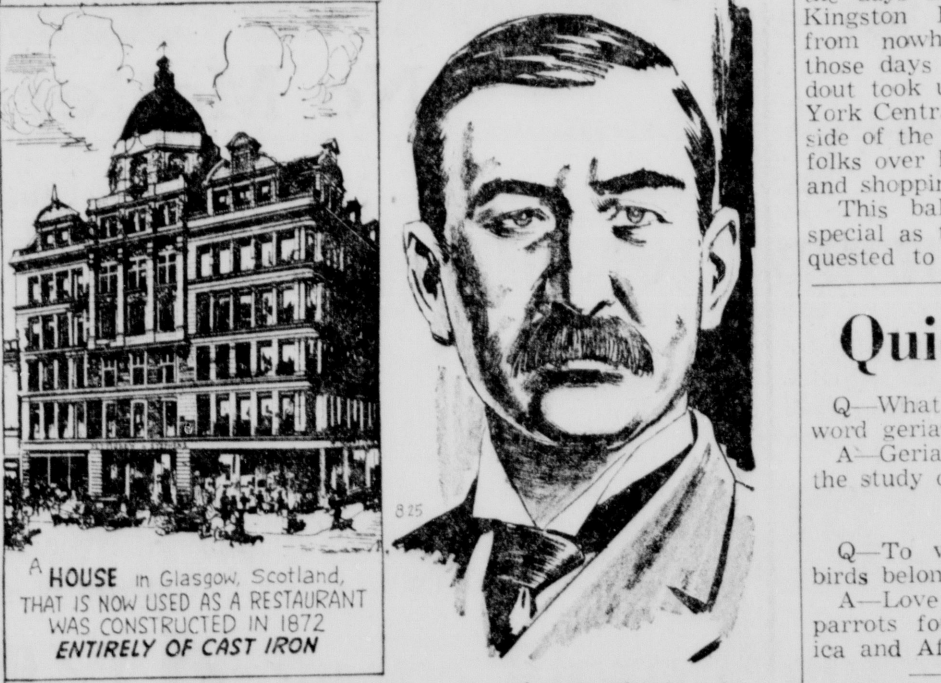

In the Aug. 29, 1913 Kingston Freeman, I see they say that the entertainment committee was composed entirely of Kingston Shriners, who were selected because of the excellence of all entertainments given by the Kingston Shriners. The entertainment committee consisted of Alden B. Harcourt, chairman; Ward B. Everett, Aaron Cohen, Weston H. Rider, and Christopher K. Loughran. Mr. Loughran, I see, is listed as clerk of the Surrogate Court at 246 Fair Street in 1940.

Ralph and Aaron Cohen, brothers ran the fine men's clothing store on Wall Street known as S. Cohen's Sons. Weston H. Rider had a piano store at 304 Wall, and also I think sold books and fine pictures. Alden J. Harcourt is listed as removed to Palisade, N. J. in the 1914 Kingston Directory.

Ball playing goes back to prehistoric times, S. Homer and other early writers reported that the ancient Greeks found their recreation in ball playing. Isaiah wrote: "He will surely turn and toss thee like a ball." A form of ball game is portrayed on many Egyptian monuments. Though the Romans usually disliked participation sports, the Roman baths had an apartment set aside for ball play and many Roman gentlemen had ball courts in their villas.

The blandness extends to the people who ought to be partisan for one or another of the vice presidential hopefuls. If anybody has had the ebullience to wear a vice presidential button, it has escaped this reporter's eye. The Hubert Humphrey people say it's "98 per cent sure" for Humphrey, but if it's someone else they won't raise a peep. A current theory, as I write, is that Johnson, pursuing blandness to the last inch, will pass over everybody who has been mentioned for vice president and nominate General Maxwell Taylor, the Ambassador to South Vietnam, to run with him. Taylor is politically neutral, and is just as far away from this convention as Henry Cabot Lodge was far away from New Hampshire and Oregon. He might make a good vice president, but he would be the ultimate as a convention pacifier, here could be no hard feelings among Humphrey, Eugene McCarthy, Tom Dodd, Pat Brown, and Bob Wagner if LBJ were to pass over all the political pros to pick a military man.

Blandness is all over the platform, too. The democrats point with pride to Kennedy's stance in the Cuban missile crisis, but there just ain't nuthin' about the Bay of Pigs. There's something ailing that out of thirty-one African nations formed since World War II, "not one has chosen communism," but there's nothing about the millions of bucks which this country put up to get Tshombe out of the Congo and on the strange circuit that brought him back to the Congo a year or so later. There's something about forcing Khrushchev to forego a peace treaty with East Germany, but the platform doesn't explain the rise of the Berlin Wall. No democrat will ever complain that the man who dictated the planks on foreign policy is trigger-happy; he just wants everybody to remain calm, calm, calm.

The note of blandness seems insistently in the economic sections of the platform. After a thousand days of John F. Kennedy and some nine months of Lyndon Johnson, wholesale prices are lower than they were in the days of Ike Eisenhower's blandness. The balance of payments against the U.S. has been cut to \$2 billion a year, and the gold drain has stopped. There are 72,000,000 people at work in this country, an increase of 3,900,000 over 1961. And one out of every ten persons in the country is getting a monthly social security check.

From Goldwater's standpoint, the worst of this economic blandness is that it is all so true. Poverty may exist in Appalachia, but the boardwalk types make empty stomachs seem very far away.

There's even something for everybody in the Civil Rights part of the platform. Oh, yes, the Civil Rights Act is the "greatest Civil Rights measure in the history of the American people." But the Democratic party pledges that it is "equally firm in opposing any policy of quotas or discrimination in reverse, and all other arbitrary or irrelevant distinctions in American life." "Irrelevant distinctions" is open to almost as many interpretations as "extremism in defense of liberty, etc. . . ."

As Ted Lewis, the old handleader of the nineteen twenties and thirties, used to say, "Is Everybody Happy?" You bet. And if there are any of Eisenhower's "sensational-seeking communists" in Atlantic City, they will be reduced to interviewing sharks.

Dilated Lung Airways Cause Mucus to Collect

By WAYNE G. BRANDSTADT, M.D.  
Newspaper Enterprise Assn.

Q—What is bronchiectasis? Is it contagious? What is the treatment?

A—Bronchiectasis is a chronic disease in which the smaller airways in a part of the lung have become dilated and have lost their elasticity. As a result infected mucus collects in these airways and is hard to cough up. The disease is not contagious although it may occur as a complication of a contagious disease such as measles, whooping cough, pneumonia or influenza. In some victims it is caused by inhaling a foreign body.

The disease is very difficult to cure but antibiotics may help. The victim should practice postural drainage two or three times a day by lying against the bed with his head near the floor. This facilitates coughing up the accumulated secretions. Surgical removal of the diseased portion of the lung is often the only means of curing this stubborn disease.

Q—What is the cause of necrotizing arteritis? Does this disease develop suddenly or gradually? What are the symptoms and is there any cure?

A—This disease (also called periarteritis nodosa) may develop gradually or suddenly, usually in persons between 20 and 40 years of age. It is characterized by nodules in the smaller arteries. The cause is unknown. Since it may involve arteries in various parts of the body, the symptoms depend on the part affected. Often there is a low fever, loss of appetite and easy fatigability.

If the kidneys are involved the blood pressure may be high and there may be albumin in the urine. In some victims there are abdominal pains and bleeding from the digestive tract. In others there may be shortness of breath or asthma-like wheezing. If the heart is involved the pulse may be fast and there may be waterlogging of the ankles. Pains in the muscles and joints are common symptoms and painful nodules may be felt in the small blood vessels of the skin.

The outlook is not as hopeless as it was before the discovery of cortisone and related drugs. Although these drugs do not cure the disease they can relieve the symptoms and prevent further development.

Q—My doctor wants me to quit smoking because I have asthma. Will Bantron help me?

A—Bantron is a combination of lobeline and antacids. Some authorities believe it helps their patients to quit smoking but the best evidence suggests that a firm resolve to quit is more dependable than any drug.

Washington News

ATLANTIC CITY Aug. 24 (NEA)—Democratic leaders, steering their 1964 convention cautiously, may have put Sen. Barry Goldwater's "southern strategy" in jeopardy for the second time in nine months.

This strategy, rooted in the idea Goldwater can win most or all of the Old South's 128 electoral votes this fall, collapsed last November when President Lyndon B. Johnson, southerner, succeeded the slain John F. Kennedy.

The motion enjoyed no more than a shaky revival until the Republicans nominated Goldwater for president at San Francisco, whereupon it shot up like corn in a humid July. Southerners took fresh hope he might win, with their help, and reverse the tide of Negro advances on the civil rights front.

Goldwater still rides very high in the South as heavy campaigning approaches. In many quarters, broad inquiry discloses, it is distinctly out of fashion at the moment to mention any name but his.

Yet here in Atlantic City a base has been laid for making Johnson not merely mentionable but a possible winner in much of the South.

There were grave dangers, but the President and his strategists seem to have skirted them.

The Keys to This Careful Navigation:

1. A civil rights plank which makes no promises of major new legislation, but instead allows the South, in the words of Florida's Gov. Farris Bryant, to "take a deep breath" after witnessing passage of the most sweeping civil rights law in history.
2. A soft-stepping approach to

the noisy Alabama and Mississippi seating disputes which, first evidence suggests, will not be read by the whole South as another stiff, blow to its pride but accepted instead as fair dealing.

THIS REPORTER'S canvass of leaders in nearly every Old South state indicated their firm general conviction that these things had to be managed or they could not hope to mount an effective campaign to "get the South back" from Barry in the week ahead.

The loyal LBJ southerners are getting what they wish. They now can ask their voting friends to "live with" the temperate attitudes exhibited by their national party under the tight guidance of Lyndon Johnson.

In Texas, Louisiana, Arkansas, Tennessee, Georgia, North and South Carolina, test findings among knowledgeable political figures disclose far livelier prospects for the President than were visible a few weeks ago. Goldwater's lead in Virginia and Florida—both in the GOP column in the last three presidential elections—may not be sustainable.

Alabama and Mississippi, despite this convention's avoidance of a harsh rebuff to their disputed regular delegations, were largely locked up for Goldwater before Atlantic City.

Nothing else in the South is conceded by top Democrats today.

IN GEORGIA, where an expert's two-week swing through the state turned up heavy Goldwater sentiment, the word from him, nevertheless, is: "Things will change when Senator Talmadge and Senator Russell begin working, as they will, for Lyndon."

South Carolina's Gov. Donald Russell and Sen. Olin Johnston will be doing the same, though

with no aid from Sen. Strom Thurmond.

A TEXAS OBSERVER, scanning territory long prized by Goldwater as fertile for him, predicts just the same that native son LBJ will take it in a near sweep.

Louisiana politicians at middle level dare to suggest Johnson will capture the state despite coolness from Gov. John McKeithen and Senators Allen Ellender and Russell Long. New Orleans could provide a good lift.

Counted on to be finally persuasive in these and some other southern states is not simply Johnson the southerner, but Johnson the leader of a political party which stands in the South for farm subsidies, welfare, boosts for education, and other aids to the many needy folk who could express their economic interest resoundingly at the polls.

Do You Remember by Sophie Miller

The other day, Mrs. Horace (Mabel) A. Jones of 191 Hurley Avenue brought in to show me a very interesting photograph, of many people. Men wore Shriners' fezzes, and the ladies were dressed as for a going away party. It looked like several hundred people, and in the center is a large Cyprus Band drum. I found in the Kingston Freeman and Journal of Friday, Aug. 22, 1913 that the Shriners were having two clambakes to be held at Poughkeepsie. One Sept. 4, the other Sept. 10. It said that the first bake was to be under the supervision of the Kingston Shriners' Association and to be held at Kohl's Lookout Farm at Poughkeepsie.

It told how the members of the local chapter were to assemble at the Eagle Hotel at 9:30 a. m. (where the County Office Building is looming so high in 1964). From the Eagle Hotel they were to make a short parade to North Front and Wall Streets, where they were to board cars for Rondout and embark on the steamer, Bunker, for Poughkeepsie. The Saengerfest band went along, and President Christopher K. Loughran and his committee were in charge.

The second bake on Sept. 10 was to be held by the Cyprus Temple of Albany, of which most of the local association were members. This also was to be held at Lookout Farm and proprietor Kohl was guaranteed 500 plates. They were to leave Albany on a special train on the morning of the 10th, and the local group was to board the train at Rhinebeck. (That was in the days before the Rhinebeck-Kingston Bridge, which goes from nowhere to nowhere. In those days the ferry from Rondout took us gladly to the New York Central trains on the other side of the Hudson, and brought folks over here for social events and shopping.)

This bake was to be very special as the Shriners were requested to bring their mothers.

Ralph and Aaron Cohen, brothers ran the fine men's clothing store on Wall Street known as S. Cohen's Sons, Weston H. Rider has a piano store at 304 Wall and also I think sold books and fine pictures. Alden J. Harcourt is listed as "removed to Palisade, N. J. in the 1914 Kingston Directory."

The Democratic Platform And Trigger on A-Arms

By DAVID LAWRENCE

ATLANTIC CITY—Platform planks may be tossed aside by some citizens in our country as just so much verbiage, but foreign governments—both friend and foe—are accustomed to reading between the lines of any foreign policy pronouncement from the United States. They are anxious to determine whether America will stand up resolutely or procrastinate in an emergency and thus unwittingly give an adversary a big advantage.

A developing issue which has crept into the political campaign involves a possible land invasion of Europe some day by Communist armies. Sen. Goldwater thinks that, to meet such a contingency, the supreme commander of the North Atlantic Treaty Organization—usually an American—should be authorized in advance that under certain circumstances small nuclear weapons of a tactical nature may be used to thwart an aggression. For this, the Republican Presidential nominee has been accused by the Democrats of wanting to "trigger a war" or of wishing to let some irresponsible hand abroad start a nuclear conflict.

The question has been further clouded by a meaningless declaration in the party platform now scheduled for adoption by the Democratic national convention here. It reads as follows:

"Control of the use of nuclear weapons must remain solely with the highest elected official of the country—the President of the United States." Nobody has ever disputed this broad principle, and Sen. Goldwater himself has said the same thing. The issue goes deeper. It concerns the best means of defending Western Europe against invasion by conventional forces. Certainly it is the duty solely of the Commander-in-Chief—namely, the President of the United States—to decide when or where any nuclear weapon, however small, shall be used.

But so also has it always been the sole right of Congress to declare war. Yet the Congress has duly ratified the North Atlantic Treaty, which authorizes in advance military action by the United States to defend immediately any or all member nations of NATO who may be attacked.

It is precisely the same concept of planning for a grave contingency that has prompted the recent discussion of how to ward off a land invasion in Europe. The idea has been to urge the President of the United

States to announce that, in an emergency, small tactical nuclear weapons can be used at once.

This, it is argued by many military men—especially in France and other European countries—is the best way to let the world in general and the Soviet in particular know that such a military aggression will not be allowed to succeed, even though the armies of the Western Allies may be greatly outnumbered.

This is one reason why the platform plank adopted here will be construed as a turn-down of the simple proposal advocated by military experts that the American supreme commander in NATO be given in advance authority to use small tactical nuclear weapons when circumstances require it.

The fear has been that, if it is widely known that NATO armies cannot immediately act in response to an attack but would have to wait for a long discussion in Washington to yield a decision on the question, then there would be danger of being overrun by an advancing enemy. A time lag of two hours could mean the difference between victory and defeat. Hence, it is urged that the field commander in chief be allowed to respond instantly by using tactical weapons with small nuclear warheads.

The Democratic national platform is vague on the whole subject, which is an indication that the politicians wish to remain noncommittal on the issue and still accuse their opponents of trying to start a nuclear war, when, in truth, the basic question is whether the Soviets shall be given virtual immunity from any nuclear response if they try to seize Berlin and West Germany and march across France with their huge armies.

The solidarity of NATO as an alliance is at stake. It has been hoped that the Administration would issue some pronouncement, even during a political campaign, that would dispel the fears of the Western European countries.

The Russians of course, are watching the whole performance here with penetrating interest. The Moscow news agency dispatches keep emphasizing that Sen. Goldwater and the Republicans are pursuing "brinkmanship" in foreign policy. Yet it was the "brinkmanship" of an American Secretary of State, the late John Foster Dulles, which deflated many a crisis in which the Communists had sought to test American resoluteness. They were answered promptly, and war was averted. It is the same formula that now is being urged on both parties by military men, who have no political axe to grind and who are concerned solely with the prevention of a major war.

Ball playing goes back to prehistoric times. Homer and other early writers reported that the ancient Greeks found their recreation in ball playing. Isaiah wrote: "He will surely turn and toss thee like a ball." A form of ball game is portrayed on many Egyptian monuments. Though the Romans usually disliked participation sports, the Roman baths had an apartment set aside for ball play and many Roman gentlemen had ball courts in their villas.

## GE to Expand, It Says, if Pay Plan Is Accepted

SCHENECTADY, N.Y. (AP)—The General Electric Co. says it will begin a \$60-million program to expand and modernize its main plant here if an employee union will accept a disputed pay plan.

GE Vice President Donald E. Craig said Monday that the company would launch the program immediately "if the union is willing to agree to what we are trying to do to make this plant competitive."

Last month, GE switched about 3,000 Schenectady workers from piecework pay rates to hourly rated pay over vigorous objections of the International Union of Electrical Workers (IUE).

IUE Local 301, claiming the changeover would cost employees \$10 million in yearly pay, took the matter to court. A union request for an injunction against GE, on the ground the new pay plan violates its contract, is pending in the U.S. District Court in New York City.

GE outlined its expansion program and proposals for additional transitional pay arrangements at a meeting with union leaders but received no commitments.

Craig said the construction program would include a new motor-generator plant of about 200,000 square feet, a new continuous-operation mill to produce wires for motors and generators, modernization of equipment in the motor and generator division, a quality control center, a computer center and plant-wide modernization of equipment and facilities.

He said it would take four to five years to complete the work. Guano miners have taken 100,000 tons of fertilizer from the floor of Bat Cave in Carlsbad Caverns, New Mexico.

## Keating Will Not Pressure Removal Of Mrs. Boothe

BUFFALO, N.Y. (AP)—Sen. Kenneth B. Keating says he would not "engage in any deals" to remove Mrs. Clare Boothe Luce as a possible Conservative Party opponent in his re-election bid.

"I am always open to persuasion, but never to pressure," the Rochester Republican said sharply as he campaigned Monday at the Erie County Fair in nearby Hamburg.

Keating has refused to support Sen. Barry Goldwater, the GOP presidential nominee. Mrs. Luce said she would withdraw from the election scene if Keating would declare his support for Goldwater.

"I don't care how many candidates they get against me, or from what state they are from, I will continue to campaign on my record and the principles that I believe are right," said Keating.

The comment was in apparent reference to Mrs. Luce, who resides in Connecticut, and to Atty. Gen. Robert F. Kennedy, who votes in Massachusetts, lives in Virginia and is the likely Democratic candidate for the Senate seat in New York.

### Blackwood Cue Has Weakness

By OSWALD JACOBY

Some years ago John Gerber of Houston devised a four-club convention which asked for aces in the same manner that Blackwood four no-trump did.

This convention has never achieved wide acceptance except that most expert players like to use certain four no-trump calls as strong bids in no-trump and under such circumstances they want to use four clubs as the ace request.

One spot in particular is when your partner has opened one no-trump. If you have a balanced hand with 16 points you want to invite a slam. If partner has a 17-point no-trump you want to be in six. If he has only 15 points or a bad 16 you don't want to get past four no-trump.

North and South each hold 16 points and 4-3-3-3 distribution. It doesn't matter which partner opens no-trump, the other will be interested in a slam. If they play all four no-trump bids as Blackwood, there is no way to invite a slam. Responder must either bid a slam or settle for game.

## Equalization Set For Seven Towns

Final state equalization rates based on 1964 assessment rolls have been established for seven townships of Ulster County, the State Board of Equalization and Assessment reported this week.

The towns and final rates are as follows:

Denning 14; Hardenbergh 30; Hurley 23; Kingston 24; New Paltz 14; Wawarsing 17, and Woodstock 12.

State equalization rates are set annually by the board for each of the cities, towns and vil-

lages. The rates are the ratio between the assessed value of local real property and its actual or full value as determined by the state.

For example, if a locality's state rate is 50, its assessed valuation represents one half or 50 per cent of its full valuation of real property.

When market values rise in a community but assessments do not, the rates drop. Lower rates usually mean increased share of school taxes and lesser portion of state aid.

lages. The rates are the ratio between the assessed value of local real property and its actual or full value as determined by the state.

For example, if a locality's state rate is 50, its assessed valuation represents one half or 50 per cent of its full valuation of real property.

When market values rise in a community but assessments do not, the rates drop. Lower rates usually mean increased share of school taxes and lesser portion of state aid.

# Hurricane Cleo Hits Northern Jamaica and Oriente in Cuba

KINGSTON, Jamaica (AP)—Gale force winds raked Cuba's Oriente Province and Northern Jamaica today as Hurricane Cleo churned through the strait separating the two islands. Seas raged and heavy surf battered shipping and coastal installations along Jamaica's north coast and Cuba's south-eastern coast.

## Troopers Probing Area Kidnaping Of Two Girls, 16

Kingston troopers are investigating an alleged kidnaping involving two area girls. About 1:30 p. m. Monday two high school girls, 16 years of age, were accosted on the street by three men in a car. Troopers described the men as two white males and one allegedly a Puerto Rican. The men allegedly picked up the two girls and drove off. One of the girls broke loose, troopers reported, but the second girl was taken to Middlemore where she was tied to a tree along the highway and allegedly held captive several times. She finally broke loose and summoned help.

One of the girls called her mother and state police were alerted. Among those who conducted an investigation was Zone Lieut. A. F. Van Blaricum, Investigator James Kallian, Sergeant Henry S. Rhodes, Trooper Robert Houghtaling and Trooper John Kuhlhand.

## Social Security Has Anniversary: 700 Benefit Here

The year 1964 is an important anniversary for social security, according to George J. Habernig, social security district manager in Kingston. "The 700 people in Ulster-Greene Counties who are getting social security disability insurance benefits will be especially interested to know that the social security disability insurance program was started exactly 10 years ago," he said.

It was in 1954 that Congress amended the Social Security Act to provide for freezing the social security records of workers who become disabled. This "freeze," like the waiver-of-premium clause in an insurance policy, protects the worker's social security credit while he is unable to work, and prevents the reduction or loss of his social security retirement benefits.

"Some 421,000 retired workers are now benefiting from the disability 'freeze,'" Habernig said. "These are people who, because they could not work, had lost their social security credit while they were disabled, might well have lost their entitlement to social security old-age insurance benefits. Instead, their social security records were stopped as of the month in which they became disabled. This meant that their average yearly earnings were not reduced by those income-less years, and their social security benefits were not reduced when they retired."

Anyone who has questions about the social security disability program, or about any other aspect of social security, is welcome to bring them to the social security district office, 57 Albany Avenue, Kingston.

## Man Is Arrested For Transporting Sweepstakes Stubs

ELMIRA, N.Y. (AP)—A 52-year-old printer was arrested by the FBI today on a charge of illegally transporting approximately 75 receipts for New Hampshire sweepstakes tickets into New York State.

It was the first such arrest in Upstate New York, the FBI said.

Anthony L. Fabrizio of Elmira was taken into custody as he returned from New Hampshire, where he had been selling sweepstakes tickets, legal in New Hampshire, and charged them \$4 for each ticket. He would drive to New Hampshire, buy the tickets at \$3 each, and return to Elmira to distribute the receipts, Turyn said.

An FBI spokesman said he did not know total number of receipts involved, although, he said, agents found about 75 in Fabrizio's possession.

Fabrizio's arraignment before U.S. Commissioner Irving E. King was postponed before U.S. Commissioner Thomas F. Sacco, manager of Kingston on a charge of violating Title 50, Section 462, of the U.S. Code. The charge is that of failing to report for induction into the military forces.

The complainant was Earl N. Bishop, U.S. Commissioner for Southern District of New York. Before U.S. Commissioner Sacco, Sacco, Feldman was examined, Feldman was held in \$2,500 bail. In lieu of bail he was committed to the Ulster County jail to await transfer by the U.S. marshal.

## Fireworks Explode, 42 Persons Killed

TOLUCA, Mexico (AP)—At least 42 persons were killed when a pile of fireworks exploded during a religious celebration near here Monday. Another 33 were injured.

Rescue workers, digging through debris in the village of Atlahuaca in central Mexico, said the toll of dead and injured might go higher.

The fireworks exploded near several tanks of inflammable gas. Authorities said they had not determined what set off the fireworks.

## Pay-As-You-Go Tax Withholding Upheld in Court

Internal Revenue regulations requiring employers to deduct and withhold income tax from each wage payment to employees have been upheld in the U. S. District Court.

In a recent test of regulations which interpret the tax withholding provisions of the law, the U. S. District Court for the Northern District of West Virginia rejected an employer's contention that the law required income taxes be deducted from one out of four weekly paychecks.

## del Castro began his drive to power.

The Jamaican Weather Office said reconnaissance planes reported the hurricane veered northward during the night and appeared headed more directly toward Cuba. Extent of the northward turn would not be known until additional observations were made by hurricane hunter aircraft.

Forecasters said Cleo appeared headed toward Oriente Province, which suffered a severe blow last October from Hurricane Flora.

Residents were evacuating the southern coast of Cuba's Oriente Province, Havana radio said, and the government was preparing to evacuate parts of neighboring Camaguey Province.

Fifty thousand and 50 nurses left Havana Monday night to work with emergency teams previously established in Camaguey, the broadcast said.

At 8 a.m., EST, the hurricane was centered about 35 miles south of Cuba.

The Miami, Fla., Weather Bureau said peak winds were about 110 miles per hour near the center and the storm was on a west-northwest course at 15 miles per hour.

Radar at the U.S. Navy base, Guantanamo Bay, Cuba, and reconnaissance planes were keeping watch on the hurricane.

There were no reports of the damage done in Haiti. Last year, Haiti's mountains slowed Cleo's 140 mile-an-hour winds but the storm was regaining force over the warm, open waters.

Cleo hit Guadeloupe last Saturday, then skirted to the south of Puerto Rico and the Dominican Republic before plunging across the southern tip of Haiti. She caused at least 14 deaths, injured 100 and did \$50 million damage in Guadeloupe.

Rule Topps Has Illegal Monopoly On Flipcard Gum

NEW YORK (AP)—Topps' bubble gum cards with pictures of baseball players may look like kid stuff, but a Federal Trade Commission examiner has ruled that the firm has a monopoly in them.

In a 113-page decision, examiner Herman Tocker proposed Monday that the company should limit the length of the contracts it signs with players.

He said that Topps—with annual sales of \$14 million—the largest of bubble gum makers—had by extensive missionary work in the minor leagues signed virtually every major league player.

A spokesman for the company said any adverse decision by the full commission would be appealed.

In 1961 Topps had on its roster 446 of the 450 major league players. The young fans trade cards or buy more bubble gum to get the cards they want, and the progress of a player during the season can be charted by his value on the bubble gum card exchange.

Tocker accused the company of contributing to the "regimentation of the baseball-card buying public."

He said Topps' exclusive agreements with 6,500 ballplayers run for five years and are renewable before they expire. The ballplayers get \$125 a year if their picture is used. They are signed in the minors for a \$3 bonus.

Tocker proposed limiting the contracts to two years, limiting the firm's power of renewal, and voiding any existing contract after October 1966.

Makarios Meets To Confer With Greek Premier

ATHENS, Greece (AP)—President Makarios of Cyprus flew here today from Nicosia and met Premier George Papandreu in what appeared to be an effort to iron out differences between them.

Makarios was invited here by the Athens government only a few hours after Cyprus Foreign Minister Spyros Kyprianou and Papandreu conferred.

Kyprianou came out of the meeting Monday night talking about "complete independence" for Cyprus while Papandreu said "enosis (union with Greece) is the natural solution."

## Claim Pope Will Make Peace Appeal

VATICAN CITY (AP)—Vatican sources said Pope Paul VI will make an extraordinary peace appeal Wednesday.

The sources said the pontiff would speak at his weekly general audience at his summer residence just south of Rome.

The Pope said in his first encyclical two weeks ago that he would be ready to intervene to help settle world disputes. A few days later he appealed for peace on Cyprus.

## Thefts, Vandalism Still Are Being Checked by Police

Local police today continued investigation of theft and vandalism in the city, particularly at marinas along the Rondout Creek, where an outboard motorboat was recently rifled and sunk.

After cutting the clavis cover on the boat of Carl Cline Jr., of Port Ewen, otherwise damaging the craft, and stealing a battery, fire extinguisher and seats, the person or persons involved, opened a seacock and sunk the boat moored at the Ideal Marina, Island Dock.

The outboard was the fourth or fifth craft rifled or damaged or both within the past several days in the area.

Police headquarters was notified this morning that the home of Patrolman Meyer Levy, at 60 Abby Street, had been damaged by someone or persons, who threw fluorescent light tubes against a side of the house leaving holes in aluminum siding.

Police were also notified early today that a street light was broken on West Chester near Augusta Street by a group of boys who were seen running from the area.

## Catholic Sector Nearly Destroyed By Looting Band

DA NANG, South Viet Nam (AP)—Rioters and looters, predominantly Buddhists, virtually demolished a Roman Catholic community of about 3,000 inhabitants in this coastal city today. Several hundred South Vietnamese troops with armored personnel carriers looked on passively.

Despite the troops and the presence of the commander of the Vietnamese 1st Division, Gen. Nguyen Chan Thi, at least 15 more houses were burned to the ground. A dozen had gone up in flames Monday.

The senior U.S. Army adviser to Da Nang, Col. John H. Wolner, of Canton, Miss., in a fury at Vietnamese commanders for their failure to halt looting, telephoned the U.S. commanding officer, Gen. William C. Westmoreland, in Saigon for instructions.

But Americans stayed out of the fight, which unfolded only a few hundred yards in front of the U.S. enlisted men's compound that was a target of rioters Monday.

## Americans Injured In Viet Bombing

SAIGON, South Viet Nam (AP)—A terrorist bomb shattered parts of two floors at Saigon's Caravelle Hotel today, injuring at least nine persons, four of them Americans.

The blast was centered in a room rented Monday night by a Vietnamese man now being sought by police, a hotel source said.

The Americans injured were identified as Mr. and Mrs. Dan Moran of San Francisco, Mrs. Hugh G. Glassford, wife of a National Broadcasting Co. correspondent, and an unidentified U.S. serviceman. All had minor injuries caused by flying glass and other debris.

John H. Lane, Shokan, was Luanda Moran, Caroline de la Montanya and William Harvey VanBenschoten, Olive Civil War veteran.

# 11,000 Witness Mass in English For First Time

ST. LOUIS, Mo. (AP)—A Roman Catholic Mass, presented for the first time in English, enraptured 11,000 persons witnessing the historic event Monday and seemed to fulfill its aim: To present the Gospel in familiar terms.

It was the first time the dialogue between priest and the laity was in English during worship—a change that will come to all Latin rite churches in this country on Nov. 29, the first day of the ecclesiastical year.

Not all the Mass was in English—as it is expected to be eventually. The prayers said at the foot of the altar by the celebrant, the Rev. Frederick R. McManus, of Washington, D.C., were in the traditional Latin.

The service veered from tradition in other respects, too. Father McManus faced his huge congregation from a dais raised three feet from the auditorium floor. The altar was a simple gray block flanked by 40 gray wooden candles upon which sat the priests.

One of the hymns was by Martin Luther, 16th-century German Reformation leader.

Another hymn sung in English was part of a Mass written three years ago by the Rev. Clarence J. Rivers, 33, a Negro priest from Cincinnati, Ohio.

Father Rivers sang it in a rich baritone while communion was distributed.

A layman, John Manion of Washington, D.C., was narrator of the Mass, speaking from the sanctuary before the altar.

Permission for holding parts of the Mass in the language of their country was given last year by the Second Vatican Council and Pope Paul VI.

Its first presentation in English opened the 25th annual liturgical week—a four-day workshop on church matters for 15,000 priests, nuns and lay people.

A 42-member commission, including two Americans, will begin next April to rewrite the entire Mass. One of the Americans is Joseph Cardinal Ritter, archbishop of St. Louis.

## Declares 7,000 Minors Worked on Farms Illegally

"Last year almost 7,000 minors under 16 years of age were found employed on farms during school hours in violation of the Fair Labor Standards Act."

This fact was pointed out by Frank B. Mercurio, regional director of the U.S. Labor Department's Wage and Hour and Public Contracts Divisions, in issuing a reminder on the provisions of the law to farmers and contractors who expect to hire young workers to help with the fall harvest.

The act sets a 16-year age minimum for the employment of children in agriculture during school hours and applies to children of migratory workers as well as to local children. The only exception is where a child is working exclusively for his parents or guardian on their farm.

"The uneducated children of today are the unemployed workers of tomorrow," Mercurio said, "and children who follow the crops are usually more educationally disadvantaged than boys and girls who do not work in the fields."

Each year the Divisions find some youngsters who are working in the fields and have never attended any school. Others may have gone to school but are usually in grades below normal for their ages.

Mercurio said that children may legally work in agriculture outside of school hours or on weekends and holidays, but their place is in the classroom when school is in session.

"All states also have child-labor laws," he said, "and most have school attendance laws. If federal laws, the higher standards apply."

# Hurricane Cleo Hits Northern Jamaica and Oriente in Cuba

KINGSTON, Jamaica (AP) — Gale force winds raked Cuba's Oriente Province and northern Jamaica today as Hurricane Cleo churned through the strait separating the two islands. Seas raged and heavy surf

battered shipping and coastal installations along Jamaica's north coast and Cuba's south-eastern coast. Winds were building to hurricane force from Santiago, Cuba, westward along the Sierra Maestra Mountains, where Fidel

del Castro began his drive to power. The Jamaican Weather Office said reconnaissance planes reported the hurricane veered northward during the night and appeared headed more directly toward Cuba. Extent of the northward turn would not be known until additional observations were made by hurricane hunter aircraft.

Forecasters said Cleo appeared headed toward Oriente Province, which suffered a severe blow last October from Hurricane Flora.

## Leaving Areas

Residents were evacuating the southern coast of Cuba's Oriente Province, Havana radio said, and the government was preparing to evacuate parts of neighboring Camaguey Province.

Fifty physicians and 50 nurses left Havana Monday night to work with emergency teams previously established in Camaguey, the broadcast said.

At 8 a.m., EST, the hurricane was centered about 35 miles south of Cuba.

The Miami, Fla., Weather Bureau said peak winds were about 110 miles per hour near the center and the storm was on a west-northwest course at 15 miles per hour.

Radar at the U.S. Navy base, Guantanamo Bay, Cuba, and reconnaissance planes were keeping watch on the hurricane.

## No Report on Haiti

There were no reports of the damage done in Haiti last year, Flora killed thousands there. Haiti's mountains slowed Cleo's 140 mile-an-hour winds but the storm was regaining force over the warm, open waters.

Cleo hit Guadeloupe last Saturday, then skirted to the south of Puerto Rico and the Dominican Republic before plunging across the southern tip of Haiti. She caused at least 14 deaths, injured 100 and did \$50 million damage in Guadeloupe.

## Rule Topps Has Illegal Monopoly On Flipcard Gum

NEW YORK (AP) — Topps' bubble gum cards with pictures of baseball players may look like kid stuff, but a Federal Trade Commission examiner has ruled that the firm has a monopoly in them.

In a 113-page decision, examiner Herman Tocker proposed Monday that the company should limit the length of the contracts it signs with players.

He said that Topps — with annual sales of \$14 million the largest of bubble gum makers — had by extensive missionary work in the minor leagues signed virtually every major league player.

A spokesman for the company said any adverse decision by the full commission would be appealed.

In 1961 Topps had on its roster 446 of the 450 major league players. The young fans trade cards or buy more bubble gum to get the cards they want, and the progress of a player during the season can be charted by his value on the bubble gum card exchange.

Tocker accused the company of contributing to the "regimentation of the baseball-card buying public."

He said Topps' exclusive agreements with 6,500 ballplayers run for five years and are renewable before they expire. The ballplayers get \$125 a year if their picture is used. They are signed in the minors for a \$5 bonus.

Tocker proposed limiting the contracts to two years, limiting the firm's power of renewal, and voiding any existing contract after October 1966.

## 11,000 Witness Mass in English For First Time

ST. LOUIS, Mo. (AP) — A Roman Catholic Mass, presented for the first time in English enraptured 11,000 persons witnessing the historic event Monday and seemed to fulfill its aim: To present the Gospel in familiar terms.

It was the first time the dialogue between priest and the laity was in English during worship — a change that will come to all Latin rite churches in this country on Nov. 29, the first day of the ecclesiastical year.

Not all the Mass was in English — as it is expected to be eventually. The prayers said at the foot of the altar by the celebrant, the Rev. Frederick R. McManus, of Washington, D.C., were in the traditional Latin.

The service veered from tradition in other respects, too. Father McManus faced his huge congregation from a dais raised three feet from the auditorium floor. The altar was a simple gray block flanked by 40 gray wooden cubes upon which sat the priests who helped distribute communion.

One of the hymns was by Martin Luther, 16th-century German Reformation leader.

Another hymn sung in English was part of a Mass written three years ago by the Rev. Clarence J. Rivers, 33, a Negro priest from Cincinnati, Ohio. Father Rivers sang it in a rich baritone while communion was distributed.

A layman, John Manion of Washington, D.C., was narrator of the Mass, speaking from the sacristy before the altar.

Permission for holding parts of the Mass in the language of their country was given last year by the Second Vatican Council and Pope Paul VI.

Its first presentation in English opened the 25th annual liturgical week — a four-day workshop on church matters for 15,000 priests, nuns and lay people.

A 42-member commission, including two Americans, will begin next April to rewrite the entire Mass. One of the Americans is Joseph Cardinal Ritter, archbishop of St. Louis.

## Declares 7,000 Minors Worked on Farms Illegally

"Last year almost 7,000 minors under 16 years of age were found employed on farms during school hours in violation of the Fair Labor Standards Act."

This fact was pointed out by Frank B. Mercurio, regional director of the U. S. Labor Department's Wage and Hour and Public Contracts Divisions, in issuing a reminder on the provisions of the law to farmers and contractors who expect to hire young workers to help with the fall harvest.

The act sets a 16-year age minimum for the employment of children in agriculture during school hours and applies to children of migratory workers as well as to local children. The only exception is where a child is working exclusively for his parents or guardian on their farm.

"The uneducated children of today are the unemployed workers of tomorrow," Mercurio said, "and children who follow the crops are usually more educationally disadvantaged than boys and girls who do not work in the fields."

Each year the Divisions find some youngsters who are working in the fields and have never attended any school. Others may have gone to school but are usually in grades below normal for their ages.

Mercurio said that children may legally work in agriculture outside of school hours or on weekends and holidays, but their place is in the classroom when school is in session.

"A states also have child-labor laws," he said, "and most have school attendance laws. If the standards differ from the federal law, the higher standards apply."

## Faces Draft Evasion

Warren Ira Feldman, 25, of Bronx was apprehended in Monticello and arraigned before U. S. Commissioner Thomas F. Saccoman of Kingston on a charge of violating Title 50, Section 462, of the U.S. Code. The charge is that of failing to report for induction into the military forces.

The complaint was Earl N. Bishop, U.S. Commissioner for the U.S. District Court, Southern District of New York. Before U.S. Commissioner Saccoman, Feldman waived examination and was held in \$2,500 bail. In lieu of bail he was committed to the Ulster County jail to await transfer by the U.S. marshal.

An FBI spokesman said he did not know total number of receipts involved, although, he said, agents found about 75 in Fabrizio's possession. Fabrizio's arraignment before U.S. Commissioner Irving E. Kind was postponed for a week. He was released in \$500 cash bail.

## Two Drivers Are Held on Charges By City Police

A driver charged with having driven into two cars and a side of the Park Diner, 37 Albany Avenue, early Monday was booked on two charges, when he appeared later at police headquarters, and another was charged early today with driving while intoxicated.

Malcolm Lyons Sr., 54, of RD 4, Kingston, who police charge was involved in the damaging mishap in the Park Diner lot, was charged with leaving the scene of an accident, and driving without a license.

City Judge Joseph D. Saccoman today put hearing over to Wednesday. Bail, fixed at \$50 on the first charge, and \$25 on the other, was not immediately posted.

A police report Monday said Lyons "had entered police headquarters on his own free will at about 3 p. m." and the charges were based upon information obtained by Officer Weston Hof-fay.

The car involved, police noted, is owned by Malcolm Lyons Jr., of 25 Liberty Street, Danbury, Conn. It was said to have damaged two cars in the lot, struck a side of the diner and damaged a step railing. A first report on the mishap was made by Officer Ira Hadsel.

A police report at 3:06 a. m. today noted that a summons was issued to Karl F. Koch, 49, of RD 3, Box 264, Saugerties, charging him with driving while intoxicated. The report noted that Officer Leon Fitzgerald was holding a man at or near the Stadium Diner, and officers Ira Hadsel and George Barringer were dispatched there.

Koch was released in the custody of Attorney James J. Abernethy. Attorney John E. Gotelli appeared in court today with Koch for Abernethy and hearing was put over to Sept. 4 for all purposes. Koch remained in the custody of counsel.

## Local YR's Hear Official of State Republican Clubs

The newly-formed Kingston District Young Republican Club was addressed Monday night by Miss Mary Ann Knauss, vice president of the New York Association of Republican Clubs.

The occasion took place at the Governor Clinton Hotel. Miss Knauss spoke about the inner apparatus of the Republican Party, the need for party unity and the importance of soliciting voters.

The new local organization has received the support of the Republican Party in New York State. Ira Trash, president of Ulster County Young Republicans, has told Assemblyman Kenneth L. Wilson that the two organizations can cooperate.

More than 75 per cent of the membership is expected to attend the Young Republican Board of Governors meeting scheduled for Syracuse, N. Y., Sept. 18 to 20.

The local group meets on the last Monday of every month.

## Financial and Commercial

NEW YORK (AP) — A cautious stock market backed water today amid uncertainty over developments on the labor and political fronts.

Losses of most key stocks were fractional and many issues were unchanged. The decline was small on average and trading dragged in typical.

The leading auto stocks were unchanged to lower. The trend was generally lower among steels, the major oils, rails, tobaccos, chemicals and nonferrous metals, but utilities were generally firm.

The Associated Press average of 60 stocks at noon was off .4 at 35.2 with industrials off .8, rails off .5 and utilities up .4. The Dow Jones industrial average at noon was off 1.17 at 836.14.

The averages were dampened by Du Pont, which lost more than a point, and by fractional losses of Union Carbide, Jersey Standard, Kennecott, Chrysler and Westinghouse Electric. General Motors and Ford were about unchanged. U.S. Steel, Bethlehem and American Telephone eased.

Great Northern Railway was up more than a point but Northern Pacific lost a fraction. Prices were irregular in moderately active trading on the American Stock Exchange.

Corporate bonds were lower. U.S. government bonds were unchanged.

Quotations by Wood, Walker & Company, members of the New York Stock Exchange, 63 Wall Street, New York City, branch office, 52 Main Street, Matthew F. Hasbrouck Jr., manager.

## Cooling Tonsils Saves Blood, Say New York Doctors

WASHINGTON (AP) — Use of super-cooled probes to make inflamed tonsils disappear in virtually bloodless surgery was described today by two New York doctors. The tonsils are cooled to temperatures as low as 76 degrees below zero Fahrenheit.

The doctors also told of other promising uses of cryosurgery — techniques involving use of extreme cold to kill diseased tissue instead of just cutting it away.

The technique has been used in certain types of brain disorders (shaking palsy), and in treating cataracts of the eye, diseased prostate glands, and certain forms of cancer. Dr. William G. Cahan of the Sloan-Kettering Cancer Center, and Dr. Irving S. Cooper of the Department of Neurosurgery, St. Barnabas Hospital, told about the progress in reports to the first annual meeting of the Society for Cryobiology.

## Khanh Resigns

reer soldier proclaimed himself premier a few weeks after he seized power in a bloodless coup last Jan. 30. He replaced Gen. Minh, the popular Buddhist who had led the overthrow of the hated Diem regime three months earlier.

When the Gulf of Tonkin crisis broke early this month, Khanh decreed a state of national emergency. On Aug. 16 his military junta promulgated a constitution giving Khanh dictatorial powers in a national emergency and elevating him to president.

Within days, students and Buddhists took their protests against Khanh into the streets. The Buddhists demanded religious freedom, the students demanded Khanh's ouster and restoration of civilian rule.

Offers to Resign

A few hours earlier Khanh had offered to revise the constitution, which gave him dictatorial powers, in an effort to halt the wave of student rioting in key cities.

In Saigon and elsewhere, a shrill anti-American overtone had been added to the protests against Khanh. The demonstrators accused the United States of supporting Khanh's assumption of the presidency and promulgation of the constitution 10 days ago.

Ambassador Maxwell D. Taylor and Deputy Ambassador U. Alexis Johnson held an emergency postmidnight conference with Vietnamese officials today. Taylor met Monday with Khanh.

Kennedy Declares

New York state, but said he did not base his candidacy upon these connections.

"I base it on the belief that New York is not separate from the nation in the year 1964," he said. "I base it on the conviction that my experience and my record equip me to understand New York's problems and to do something about them."

"I base it on the fact that the greatest state in the union must play a leading role at the federal level in solving these problems. And I wish to play a part in that effort."

Stratton Charges

maintains a voting residence in Massachusetts.

Has Top Leaders

While Stratton has had the support of many chairmen of smaller, Upstate counties, Kennedy has gained endorsements from the top Democratic leaders of the state. Among the first were Charles A. Buckley of The Bronx and Stanley Streight of Kings County, and they are two Stratton considers "bosses."

While hitting hard at Kennedy, Palmer insisted that his real argument was against "the big city bosses," not against the attorney general.

tion' of the law. They also agreed to back "improvements of civil rights statutes adequate to the changing needs of our times."

The Democrats whipped out a plank condemning extremism "including the extremist tactics of such organizations as the Communist party, the Ku Klux Klan and the John Birch Society."

We Need You

At their San Francisco convention, GOP delegates had staged one of their bitterest battles over the extremism issue and had wound up by not mentioning it in their platform.

Sen. John O. Pastore, the Rhode Islander of Italian extraction who was chosen personally by Johnson for the keynote task, shouted in the keynote address that in the November election the people will say: "We need you, President Johnson." Pastore told a frequently applauding audience that filled most of the oversized hall that Democrats must accept the challenge to maintain the "showpiece of partnership, progress and leadership" he said had been developed in the Kennedy-Johnson years in the White House.

Teeling off on Republican nominee Barry Goldwater, Pastore said that "the sanity of America is the security of the world."

"What does the Republican candidate choose to have anything mean at any given moment?" he demanded. "The world cannot wait until Saturday to learn what he meant on Monday. The man in the White House has to be understood the first time. For him there is no second chance."

## Ten Are Injured In Subway Blast During Rush Hour

NEW YORK (AP)—A subway station explosion and panic injured at least 10 persons today during the morning rush hour.

The blast in a station cable room occurred at 8:35 a.m. and nearly an hour later all service on the Lenox Avenue line above 96th Street was halted.

It came as a train pulled into the 116th Street station, which runs between 116th Street and 117th Street.

Police said injuries resulted when those aboard a southbound express fled from the train.

Six of the injured were taken to Harlem Hospital. The other four said they would seek private medical attention.

The explosion was in a room at the north end of the 116th Street station.

The fire was minor. Police said it was extinguished and caused no injury, although heavy smoke filled the station.

## Encephalitis Is Near Epidemic Stage in Houston

HOUSTON, Tex. (AP)—Houston has recorded 179 suspected encephalitis cases and the city health officer says a possibility exists that a major epidemic may occur.

Seventeen deaths have been attributed to the disease in the last 30 days.

As the number of suspected cases grew, the geographical spread of the disease—carried by mosquitoes—widened over the city.

"There is nothing like the concentration toward the center of the city that we saw in the early reports," Dr. C. A. Pigford, city health officer, said.

Free insecticides were to be distributed to all citizens at the city's fire stations today for use on private premises. Spraying and fogging of public areas was stepped up.

Mayor Louie Welch asked citizens to take their own containers to the closest fire station for the free insecticide and instructions on how to use it.

The city also prepared to buy a new fogging machine. Reinforcement of mosquito-control crews arrived and Dr. Pigford appealed to the county's medical men for information on their cases of encephalitis, popularly known as sleeping sickness, and meningitis.

Dr. Pigford explained that the additional 79 cases, reported since the presence of the disease became known last Friday, were reported largely by private physicians.

But Market Is Not Broad

Q—"I have just taken early retirement. On August 15, I received \$10,000 from redemption of those Treasury 5 1/2% I own 100 Jersey Standard, 100 General Motors, and 90 American Telephone. I plan to invest \$5,000 in 10-year church bonds to yield 5 1/2 per cent. Should I put the remaining \$5,000 in more church bonds, add to my present stocks, or buy new ones?" S.D.

A) You have done well with your investments and should be commended.

The only disadvantage I know of about bonds of a well-established church is that they may be rather unmarketable. I believe that \$5,000 in this type of investment is sufficient.

To balance your holdings, I would buy \$5,000 United States Treasury 4 1/4% of 1974 yielding 4.17 per cent—free from state, though not Federal, income taxes.

The difference in your net return between these and \$5,000 in church bonds would be only about \$50 a year, and you would certainly have much greater liquidity.

truly be called conventional nuclear weapons."

The weapons he is telling them about, Goldwater said, are "no more powerful than the firepower you have faced on the battlefield. They simply come in a smaller package."

In New York City Monday, Goldwater met privately with business leaders.

"It's been a very good day," he said. "I'm well pleased with it."

An aide said the meetings were held to give the business community a chance to get acquainted with Goldwater and his views.

In his speech to the veterans here, the Arizona senator said President Johnson and the Democrats are undermining NATO unity.

Must Answer to History

"This administration must answer not just to the voters of this nation, but to history for its subject failures in foreign policy. And of these failures, none is more tragic than the lack of support for NATO," Goldwater said.

Too often, Goldwater said, "this administration has bypassed our NATO partners to deal directly and unilaterally with the Soviet Union."

"Our hot line to Moscow is an unfortunate symbol of this. It suggests secret conversations, deals, unilateral negotiations in matters that concern and should involve all our partners in freedom," Goldwater said.

"I pledge that as president, our NATO allies will be given the opportunity to hook into our hot line, either directly or by diplomatic process."

## Withholding Cattle From Markets Reflects in Higher Prices for Meat

By CHAD SKAGGS  
CORNING, Iowa (AP) — Housewives were paying higher prices for meat in some cities today as the National Farmers Organization continued to withhold cattle from markets in 23 states.

Meat on the hoof was bringing the highest prices in more than a year for those who did sell.

However, receipts were down at major markets as the holding action entered its fifth day. Midwest packing plants were laying off employees.

NFO President Oren Lee Staley at the organization's national headquarters here said retail price increases at this stage would be unjustified.

He said it appeared that "retail outlets will take unfair advantage of the situation and raise prices toward the end of the week."

Sporadic incidents of violence occurred as truckers tried to deliver meat animals despite the holding action.

At Duluth, Minn., retailers said fresh beef and pork cuts were up as much as 10 cents a pound.

In Boston, two grocery chains — First National Stores and Stop and Shop — said meat prices are likely to go up later this week.

NFO members massed at many marketing places Monday to try to talk truckers out of delivering animals.

The announced NFO policy is to hold out for its price goals of \$22.75 a hundredweight for No. 1 beef cattle and \$29.45 a hundredweight for sheep. It seeks contracts guaranteeing these prices, the same goal as in 1962 when it conducted a 33-day holding action.

Prices for hogs reached \$20 at Chicago and Indianapolis and \$19.25 at Omaha Monday. Prime steers brought \$28.50 at Chicago, \$27.50 at Omaha and \$27 at Indianapolis.

## Luci Johnson Arrives At Convention Scene; Takes City by Storm

By FRANCES LEWINE  
ATLANTIC CITY, N.J. (AP) — Luci Johnson made a whirlwind entry into the convention scene, dancing the frug, walking the Boardwalk and applauding the convention keynoter.

The first of the Johnson family to arrive here, 17-year-old Luci sampled lobster and frozen custard Monday and looked over the oceanfront home her family is to occupy.

She seemed to find everything satisfactory and decided to go to work today with friends at the headquarters of Young Citizens for Johnson.

The President's daughter told "Teen-Dems" and Young Citizens anything they could do from "licking envelopes to running errands" would help her father's campaign.

She said she came to pitch in, too, because she realized "my generation has responsibilities."

Luci put off the work for a while, though, to look over the sights.

She signed autographs, picked up LBJ buttons and went shopping in two stores along the oceanfront.

Her only purchase — a pair of \$6.95 rope and leather sandals, size 6, medium.

They "probably will come in handy on the campaign job today. A teen-worker advised the President's daughter to "wear flat shoes and a dirty dress" when she reported for headquarters duty.

Luci was supposed to wait until Wednesday to come here with her mother and sister, Lynda, 20. But she begged to come ahead and flew in to open the Young Democrats' headquarters and attend their dance, where she demonstrated her prowess in doing the frug, a version of the twist in which she excels.

Wearing coat and dress of pale blue to match her eyes, with a white bow on her black hair, Luci climaxed the day by taking a front row seat in the presidential box at the convention's opening session and applauding the speakers.

## Finger Lake Region Retains Indian Lore

One of the most appropriately named vacation regions in the United States stretches north and south across mid-New York State and takes its name from a half-dozen long, crystal-blue lakes etched sharply into the landscape, and known the world over as the Finger Lakes.

The name, says the State Department of Commerce, comes straight out of Indian legend. According to the tribes for whom the Finger Lakes area was a favorite hunting ground, the lakes were created when the Great Spirit blessed the land and rested his hand upon it. The lakes—roughly like the imprint of a giant hand—are the marks left by the Great Spirit's finger, according to the legend. Today they are still known by Indian names — Cayuga, Seneca, Skaneateles, Owassco, Canadigua and Keuka.

Geologists, on the other hand, credit the lake formations to glaciers. The change in the landscape carved a drainage basin to the north, the direction in which the lakes flow today.

The Finger Lakes area is one of eight vacation regions listed in "New York State Vacationlands," a free 80-page booklet available from the State Department of Commerce, 112 State Street, Albany, N.Y. 12207.

## Beatles' Debut Real Smash at Filmland Benefit

HOLLYWOOD (AP) — The Beatles made their debut in Hollywood society Monday night and scored as big a hit as they do with teen-age audiences.

The shaggy singers from Liverpool were the attraction at a garden party to benefit the Hemophilia Foundation.

It was a question of who was more excited — movie stars' children at seeing the Beatles or the Beatles at seeing the movie stars.

Movie moppets of all sizes attended. John Forsythe brought his Page, 13, Brooke, 10, and Anne, 14.

"They drug me here," he complained mildly.

Jack Palance had three children in tow. Shelley Winters was busy shooting photos of her Romina.

Lloyd Bridges lifted his Cindy, 11, atop his shoulders for a better view of Ringo, Paul, John and George.

Edward G. Robinson escorted his granddaughter. "In all my years I've never seen anything like the response these boys get," he remarked.

## KEEP WEDDING DRESS A SECRET

Q—I have just bought my wedding dress. It is very pretty and quite different. My aunt came to visit us and asked to see it. I told her I didn't want anyone to see the dress until the wedding. She was very hurt when I refused to show it to her. Doesn't a bride have a right to keep her wedding dress a secret?

A—A bride does have a right to keep her wedding dress a secret and when you did not offer to show it to her, your aunt should not have asked to see it. Your explaining politely that you were sorry but you wanted to keep your dress a surprise to everyone was quite understandable and she should not have taken offense.

**Wedding Present From Groom's Parents**

Q—Is there any specific present that the groom's parents are expected to give the bride and groom for a wedding present? Several of my friends have told me that the bridegroom's parents give the bedroom furniture.

A—It is not at all so. The bridegroom's parents give whatever present or presents they choose and can afford.

**Shower for Office Worker**

Q—An office worker with whom I have no personal friendship outside of the office is being married and some of the girls in the office are giving her a shower. I have decided to send a wedding present and do not feel our relationship warrants buying a shower present for her, too. If I don't go, will that remove the obligation to send her a shower present?

A—If you don't go to the shower, it will not be necessary to send her a shower present.

Who pays for what at the wedding? The Emily Post Institute booklet entitled, "Wedding Expenses," answers this question in detail. To obtain a copy, send 10 cents in coin and a self-addressed, stamped envelope to Emily Post Institute, in care of The Freeman.

The Emily Post Institute cannot answer personal mail, but all questions of general interest and answered in this column.

## Librarian Going To Books Preview In New York City

Miss Mabel E. Markle, children's librarian at the Kingston City Library, will represent the library at the New Books Preview in New York City Wednesday.

The New Books Preview is sponsored by the Book Publishers Council for Librarians. New and advance copies of children's and young adult books will be on display and librarians will have an opportunity to talk with editors and publishers about forthcoming publications.

The conference this year will be highlighted by a luncheon and talk by Madeline L'Engle, Newbery Medal-winning author of children's books. The Newbery Medal is awarded for the best children's story each year.

Mrs. Markle has been children's librarian at the Kingston City Library since 1957, when the children's room opened.

Many local and regional conferences on children's literature and librarianship have been held since then in the children's room. Mrs. Markle is a graduate of the University of Cincinnati and worked with children for many years as a music therapist before assuming her present part-time position.

Her representation at the conference was made possible by a travel grant from Mid-Hudson Libraries.

### Luci Johnson Arrives At Convention Scene; Takes City by Storm

By FRANCES LEWINE

ATLANTIC CITY, N.J. (AP) —

Luci Johnson made a whirlwind entry into the convention scene, dancing the frug, walking the Boardwalk and applauding the convention keynotes.

The first of the Johnson family to arrive here, 17-year-old Luci sampled lobster and frozen custard Monday and looked over the oceanfront home her family is to occupy.

She seemed to find everything satisfactory and decided to go to work today with friends at the headquarters of Young Citizens for Johnson.

The President's daughter told "Teen-Dems" and Young Citizens anything they could do from "licking envelopes to running errands" would help her father's campaign.

She said she came to pitch in, too, because she realized "my generation has responsibilities."

Luci put off the work for a while, though, to look over the sights.

She signed autographs, picked up LBJ buttons and went shopping in two stores along the oceanfront.

Her only purchase — a pair of \$6.95 rope and leather sandals, size 6, medium.

They "probably will come in handy on the campaign job today. A teen-worker advised the President's daughter to "wear flat shoes and a dirty dress" when she reported for headquarters duty.

Luci was supposed to wait until Wednesday to come here with her mother and sister, Lynda, 20. But she begged to come ahead and flew in to open the Young Democrats' headquarters and attend their dance, where she demonstrated her prowess in doing the frug, a version of the twist in which she excels.

Wearing coat and dress of pale blue to match her eyes, with a white bow on her black hair, Luci climaxed the day by taking a front row seat in the presidential box at the convention's opening session and applauding the speakers.

### Finger Lake Region Retains Indian Lore

One of the most appropriately named vacation regions in the United States stretches north and south across mid-New York State and takes its name from a half-dozen long, crystal-blue lakes etched sharply into the landscape.

Known to the world over as the Finger Lakes, the name, says the State Department of Commerce, comes straight out of Indian legend.

According to the tribes for whom the Finger Lakes area was a favorite hunting ground, the lakes were created when the Great Spirit blessed the land and rested his hand upon it. The lakes—roughly like the imprint of a giant hand—are the marks left by the Great Spirit's finger, according to the legend. Today they are still known by Indian names — Cayuga, Seneca, Skaneateles, Owego, Canadigua and Keuka.

Geologists, on the other hand, credit the lake formations to glaciers. The change in the landscape carved a drainage basin to the north, the direction in which the lakes flow today.

The Finger Lakes area is one of eight vacation regions listed in "New York State Vacationlands," a free 80-page booklet available from the State Department of Commerce, 112 State Street, Albany, N. Y. 12207.

### Beatles' Debut Real Smash at Filmland Benefit

**HOLLYWOOD (AP)** — The Beatles made their debut in Hollywood society Monday night and scored as big a hit as they do with teen-type audiences.

The shaggy singers from Liverpool were the attraction at a garden party to benefit the Hemophilia Foundation.

It was a question of who was more excited — movie stars' children at seeing the Beatles or the Beatles at seeing the movie stars.

Movie moppets of all sizes attended. John Forsythe brought his Page, 13, Brooke, 10, and Anne, 14.

"They drug me here," he complained mildly.

Jack Palance had his three children in tow. Shelley Winters was busy shooting photos of her Romina, 11.

Lloyd Bridges lifted his Cindy, 11, atop his shoulders for a better view of Ringo, Paul, John and George.

Edward G. Robinson escorted his granddaughter. "In all my years I've never seen anything like the response these boys get," he remarked.

### Prime Minister Worried

**LONDON (AP)** — Prime Minister Sir Alec Douglas-Home was reported gravely worried today that Southern Rhodesia's all-white government may attempt to seize independence early in October.

Aides said reports from Southern Rhodesia indicate some form of unilateral illegal action is being contemplated to thwart London's plan for giving Negroes a voice in the Southern Rhodesian government.

### KEEP WEDDING DRESS A SECRET

Q—I have just bought my wedding dress. It is very pretty and quite different. My aunt came to visit us and asked to see it. I told her I didn't want anyone to see the dress until the wedding. She was very hurt when I refused to show it to her. Doesn't a bride have a right to keep her wedding dress a secret?

A—A bride does have a right to keep her wedding dress a secret and when you did not offer to show it to her, your aunt should not have asked to see it. Your explaining politely that you were sorry but you wanted to keep your dress a surprise to everyone was quite understandable and she should not have taken offense.

### Wedding Present From Groom's Parents

Q—Is there any specific present that the groom's parents are expected to give the bride and groom for a wedding present? Several of my friends have told me that the bridegroom's parents give the bedroom furniture.

A—It is not at all so. The bridegroom's parents give whatever present or presents they choose and can afford.

### Shower for Office Worker

Q—An office worker with whom I have no personal friendship outside of the office is being married and some of the girls in the office are giving her a shower. I have decided to send a wedding present and do not feel our relationship warrants buying a shower present for her, too. If I don't go, will that remove the obligation to send her a shower present?

A—If you don't go to the shower, it will not be necessary to send her a shower present.

Who pays for what at the wedding? The Emily Post Institute booklet entitled, "Wedding Expenses," answers this question in detail. To obtain a copy, send 10 cents in coin and a self-addressed, stamped envelope to Emily Post Institute, in care of The Freeman.

The Emily Post Institute cannot answer personal mail, but all questions of general interest and answered in this column. (A Bell-McClure Syndicate Feature).

Miss Mabel E. Markle, children's librarian at the Kingston City Library, will represent the library at the New Books Preview in New York City Wednesday.

The New Books Preview is sponsored by the Book Publishers Council for Librarians. New and advance copies of children's and young adult books will be on display and librarians will have an opportunity to talk with editors and publishers about forthcoming publications.

The conference this year will be highlighted by a luncheon and talk by Madeleine L'Engle, Newbery Medal-winning author of children's books. The Newbery Medal is awarded for the best children's story each year.

Mrs. Markle has been children's librarian at the Kingston City Library since 1957, when the children's room opened. Many local and regional conferences on children's literature and librarianship have been held since then in the children's room. Mrs. Markle is a graduate of the University of Cincinnati and worked with children for many years as a music therapist before assuming her present part-time position. Her representation at the conference was made possible by a travel grant from Mid-Hudson Libraries.

## Five Artists in Final WAA Show

As the Woodstock Art season is nearing its close, the Executive Board of the Woodstock Artists Association has chosen five artists and two sculptors to round out the three months program. Having begun in June with Life Members Invitational Show, the following exhibitions included various styles from pop art to prints. The exhibition from August 28th - Sept. 8th at the Woodstock Art Gallery is showing the work of Bruce Dorfman, Albert Heckman, Philip Held, Barry Kahn, Andree Ruellan, Thyra Davidson and Robert Jacobson.

Of the two sculptors, Thyra Davidson does wrestling or active figures mindful of Rodin, while Robert Jacobson worked in wood making good use of that medium. Bruce Dorfman, Barry Kahn, and Philip Held enjoy working in color, using the luminous properties as a means of expression. Andree Ruellan and Albert Heckman having spent some time in Europe are sensitive to the changing means of expression while still using the orthodox media of oil and watercolor.

The opening party for these artists will be held in the Gallery Garden from 4-6, Friday, August 28th. The Gallery will also be open Friday evening from 7:30-9, Saturday morning, afternoon and evening, Sunday, Monday and Tuesday have afternoon hours only. The Gallery is closed Wednesday and Thursday.

## Christian Science Topic: 'Jesus Christ'

The life of Jesus Christ—from his birth through his ascension—will be taken up at all Christian Science churches on Sunday.

The Golden Text is from Isaiah 9: "Unto us a child is born, unto us a son is given; and the government shall be upon his shoulder."

Readings will include these lines from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Jesus established what he said by demonstration, thus making his acts of higher importance than his words. He proved what he taught. This is the Science of Christianity" (p. 473).

In Woodstock, Sunday services are held at 11 a. m.

## Catskills Theme For Woodstock's Antique Show

Woodstock, the Catskill Mountains and the country around throughout the Hudson Valley counties will be the dominant theme of the final antiques show of the season at the Colony Arts Center, Rock City Road, which will run September 4 through 6.

Early land maps of the towns along the Hudson and the neighboring counties of Ulster will be on exhibition and sale in the vast collection of items always characteristic of an antiques show. These land maps, which are almost a hundred years old, have become exceedingly scarce and valuable. Once referred to and used only by surveyors and those interested in boundaries of lands and bodies of water as well as roads that have seen considerable change, now are of interest to antiquarians and decorators who find them ideal wall pieces.

**Lithograph Exhibit**  
Other Catskill Mountain and Hudson River exhibits will include lithographs of flourishing industries of the past, such as bluestone quarrying and shipping, tanning, wheel barrow manufacturing and steamboating.

Photographs of more than 50 steamboats and ferries of the past will form another exhibit. These photographs were taken in the late 1890s by H. C. Dederick, whose hobby was photography, while employed by a steamboat company. Thus his reputation as a local historian has outdistanced that of the steamboat company that once employed him as a bookkeeper.

Individual sellers of Catskill Mountain and Hudson River material will find a ready market for their items among the dealers who display such material. Dealers consider an antiques show most successful when they can purchase more items than they sold. Sellers as well as buyers and just plain viewers can have an equally enjoyable day at the show. The Colony Arts Center show will be open from 1 to 10 p. m. each of the three days.

## Registration Is Set for Ontario

Registration for elementary grade students who are new to the Ontario Central School District and who have not already registered will be held in each of the district's elementary schools during the week of August 31-Sept. 4 from 8:30 a. m. to 4 p. m.

Parents should go to the local elementary school — Boiceville, Phoenixia, West Hurley or Woodstock—and bring the child's birth certificate, transfer card and last report card with them.

If in doubt about the elementary school for your area, please call the Bennett School at OL 7-2374, OV 8-2246 or OR 9-2475 for accurate information.

## Student Registration Is Urged by League

Mrs. Robert A. Donnan, Voters Service Chairman for the Woodstock League of Women Voters, reminds all college students who will be out of the county on Election Day to register now.

Mrs. Donnan says, "all new voters who will be 21 years of age by November 3 may apply in person or by mail to the Ulster County Board of Elections."

## Garden Club

The next regular meeting of the Woodstock Garden Club will take place on Wednesday, Sept. 2 at 2 p. m. in the Methodist Church hall. The guest speaker will be Oscar Rheingold of East Schodack, N. Y. whose talk on "Annals" will be illustrated with slides.

If beavers did not wear down the incisors by gnawing wood, these fast-growing teeth would prop their mouths open.

## Cotton Hats Top Young Fall Fashions

Designer John Fredericks predicts that cotton will go to the teen-agers' heads this fall. Here are some of his cotton hat designs. Visor cap (left) in corduroy has high crown and jaunty peak. Corduroy roller (center) will make teen-age headline news with its young off-the-face

brim and its use of two colors of corduroy. The Sherlock Holmes deerstalker corduroy hat (right) has flaps that can be worn up as shown or down to cover the ears against cold weather. These pert, young hat fashions are the perfect complement to young sports clothes for fall.

## Priest Can Belong

BRIDGEPORT, Conn. (AP) — The Most Rev. Walter W. Curtis, Roman Catholic bishop of Bridgeport, says one of his priests has every right to belong to the John Birch Society.

The Rev. Francis E. Fenton, rector of Bridgeport's Blessed Sacrament church, is a member of the national council of the society, a militantly conservative organization.

"As an individual, Father Fenton enjoys the freedom of every American citizen to belong to any organization of his choosing," said Bishop Curtis. "As a priest he continues to enjoy that right."

Father Fenton was reprimanded last year by the diocesan vicar general after he announced support of a petition urging the impeachment of Chief Justice Earl Warren.

## Three to Answer For Pelting Cars Riding on T'way

Three Coxsackie children, age 10, 11 and 12, will appear in Family Court in Greene County to answer to a charge that they damaged 18 automobiles on the Thruway by throwing rocks at them from an overpass.

Trooper Joseph Stinson of the Kingston Thruway patrol apprehended the three and charged them with having thrown rocks, about the size of lemons, at passing cars from the Route 81 bridge over the Thruway. Windshields were cracked and body of cars dented by the rocks. Two persons were slightly injured.

The three were arrested after a passing motorist had notified a Thruway maintenance crew and the crew had in turn notified the Troopers.

While Troopers were questioning the driver of a damaged car by the side of the road, a tractor-trailer rammed the rear of a car that had slowed down to watch the proceedings. Only minor injuries resulted.

## Rockefeller Not Joining Miller At His Kickoff

BUFFALO, N.Y. (AP)—Gov. Rockefeller has formally rejected an invitation to the campaign kickoff of Rep. William E. Miller, the Republican candidate for vice president, Miller said today.

Miller, in Buffalo General Hospital for a physical check-up, confirmed reports that the Republican governor, formerly a presidential hopeful, had explained that he had prior plans to spend the Labor Day weekend with his family at their summer home in Maine.

The GOP presidential candidate, Barry Goldwater, intends to participate in the Miller rally, to be held Sept. 5 in Lockport, Miller's home town.

Miller told a reporter that, at the recent GOP "unity" meeting in Hershey, Pa., he told Rockefeller he would be "delighted" to have the governor at the rally. The governor said then that he would let Miller know, the candidate reported.

Last Friday, Rockefeller spoke in Niagara Falls and boomed the GOP candidates "from top to bottom." While there, he telephoned Miller at the latter's summer home in nearby Olcott to say he would be in Maine over the Labor Day weekend, Miller said.

"That's it," Miller told a reporter by telephone from his hospital room. Miller, who entered the hospital Sunday, expects to be discharged Wednesday. The check-up, his first in two years, was arranged to precede the rigors of campaigning.

## Stampede Causes Death of Horse In Moving Truck

A stampede of six horses in a moving van coming from Luther's Auction Market at Was-saica Monday night caused the death of one, injured two others and the driver, Richard Wells of Greenville.

Millbrook State Police said Wells had picked up the horses at the Wassica auction and while proceeding home on Route 22 about 10:45 p. m., one of the horses kicked through the rear window of the truck cab and got its foot caught between the truck and the cab. The other horses stampeded and the kicking apparently killed one of the animals and injured two others, troopers said. The driver was kicked in the side but did not seek medical attention.

Delos Luther was called from the auction with another truck to calm the horses and separate them.

Troopers Jerry O'Hearn and Henry Reimer investigated the incident.

## Five Artists in Final WAA Show

As the Woodstock Art season is nearing its close, the Executive Board of the Woodstock Artists Association has chosen five artists and two sculptors to round out the three months program. Having begun in June with Life Members Invitational Show, the following exhibitions included various styles from pop art to prints. The exhibition from August 28th - Sept. 8th at the Woodstock Art Gallery is showing the work of Bruce Dorfman, Albert Heckman, Philip Held, Barry Kahn, Andree Ruellan, Thyra Davidson and Robert Jacobson.

Of the two sculptors, Thyra Davidson does wrestling or active figures mindful of Rodin, while Robert Jacobson worked in wood making good use of that medium. Bruce Dorfman, Barry Kahn, and Philip Held enjoy working in color, using the luminous properties as a means of expression. Andree Ruellan and Albert Heckman having spent some time in Europe are sensitive to the changing means of expression while still using the orthodox media of oil and watercolor.

## Christian Science

## Topic: 'Jesus Christ'

The life of Jesus Christ—from his birth through his ascension—will be taken up at all Christian Science churches on Sunday.

The Golden Text is from Isaiah 9: "Unto us a child is born, unto us a son is given; and the government shall be upon his shoulder."

Readings will include these lines from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Jesus established what he said by demonstration, thus making his acts of higher importance than his words. He proved what he taught. This is the Science of Christianity" (p. 473).

In Woodstock, Sunday services are held at 11 a. m.

## Catskills Theme For Woodstock's Antique Show

Woodstock, the Catskill Mountains and the country around throughout the Hudson Valley counties will be the dominant theme of the final antiques show of the season at the Colony Arts Center, Rock City Road, which will run September 4 through 6.

Early land maps of the towns along the Hudson and the neighboring counties of Ulster will be on exhibition and sale in the vast collection of items always characteristic of an antiques show. These land maps, which are almost a hundred years old, have become exceedingly scarce and valuable. Once referred to and used only by surveyors and those interested in boundaries of lands and bodies of water as well as roads that have seen considerable change, now are of interest to antiquarians and decorators who find them ideal wall pieces.

## Lithograph Exhibit

Other Catskill Mountain and Hudson River exhibits will include lithographs of flourishing industries of the past, such as bluestone quarrying and shipping, tanning, wheel barrow manufacturing and steamboating.

Photographs of more than 50 steamboats and ferries of the past will form another exhibit. These photographs were taken in the late 1890s by H. C. Dederick, whose hobby was photography, while employed by a steamboat company. Thus his reputation as a local historian has outdistanced that of the steamboat company that once employed him as a bookkeeper.

Individual sellers of Catskill Mountain and Hudson River material will find a ready market for their items among the dealers who display such material. Dealers consider an antiques show most successful when they can purchase more items than they sold. Sellers as well as buyers and just plain viewers can have an equally enjoyable day at the show. The Colony Arts Center show will be open from 1 to 10 p. m. each of the three days.

## Registration Is Set for Ontario

Registration for elementary grade students who are new to the Ontario Central School District and who have not already registered will be held in each of the district's elementary schools during the week of Aug. 31-Sept. 4 from 8:30 a. m. to 4 p. m.

Parents should go to the local elementary school—Boiceville, Phoenixia, West Hurley or Woodstock—and bring the child's birth certificate, transfer card and last report card with them. If in doubt about the elementary school for your area, please call the Bennett School at OL 7-2374, OV 8-2246 or OR 9-2475 for accurate information.

## Student Registration Is Urged by League

Mrs. Robert A. Donnan, Voters Service Chairman for the Woodstock League of Women Voters, reminds all college students who will be out of the county on Election Day to register now.

Mrs. Donnan says, "all new voters who will be 21 years of age by November 3 may apply in person or by mail to the Ulster County Board of Elections."

## Garden Club

The next regular meeting of the Woodstock Garden Club will take place on Wednesday, Sept. 2 at 2 p. m. in the Methodist Church hall. The guest speaker will be Oscar Rheingold of East Schodack, N. Y., whose talk on "Annals" will be illustrated with slides.

## Cotton Hats Top Young Fall Fashions

Designer John Fredericks predicts that cotton will go to the teen-agers' heads this fall. Here are some of his cotton hat designs. Visor cap (left) in corduroy has high crown and jaunty peak. Corduroy roller (center) will make teen-age headline news with its young off-the-face

brim and its use of two colors of corduroy. The Sherlock Holmes deerstalker corduroy hat (right) has flaps that can be worn up as shown or down to cover the ears against cold weather. These pert, young hat fashions are the perfect complement to young sports clothes for fall.

## Names In The News

## Cardinal Cushing 69

BOSTON (AP) — Richard Cardinal Cushing, Roman Catholic archbishop of Boston, was 69 Monday without any fanfare. He spent the day confined to his residency by a sore throat.

## Sees Long War

TAIPEI (AP) — Adm. U.S. Grant Sharp, commander in chief of the U.S. Pacific Command, says the anti-Communist war in South Viet Nam will be a long and difficult one.

## Priest Can Belong

BRIDGEPORT, Conn. (AP) — The Most Rev. Walter W. Curtis, Roman Catholic bishop of Bridgeport, says one of his priests has every right to belong to the John Birch Society.

The Rev. Francis E. Fenton, rector of Bridgeport's Blessed Sacrament church, is a member of the national council of the society, a militantly conservative organization.

"As an individual, Father Fenton enjoys the freedom of every American citizen to belong to any organization of his choosing," said Bishop Curtis. "As a priest he continues to enjoy that right."

Father Fenton was reprimanded last year by the diocesan vicar general after he announced support of a petition urging the impeachment of Chief Justice Earl Warren.

## Three to Answer For Pelting Cars Riding on Tway

Three Coxsack children, age 10, 11 and 12, will appear in Family Court in Greene County to answer to a charge that they damaged 18 automobiles on the Thruway by throwing rocks at them from an overpass.

Trooper Joseph Stinson of the Kingston Thruway patrol apprehended the three and charged them with having thrown rocks, about the size of lemons, at passing cars from the Route 81 bridge over the Thruway. Windshields were cracked and body of cars dented by the rocks. Two persons were slightly injured.

The three were arrested after a passing motorist had notified a Thruway maintenance crew and the crew had in turn notified the Troopers.

While Troopers were questioning the driver of a damaged car by the side of the road, a tractor-trailer rammed the rear of a car that had slowed down to watch the proceedings. Only minor injuries resulted.

## Rockefeller Not Joining Miller At His Kickoff

BUFFALO, N. Y. (AP) — Gov. Rockefeller has formally rejected an invitation to the campaign kickoff of Rep. William E. Miller, the Republican candidate for vice president, Miller said today.

Miller, in Buffalo General Hospital for a physical check-up, confirmed reports that the Republican governor, formerly a presidential hopeful, had explained that he had prior plans to spend the Labor Day weekend with his family at their summer home in Maine.

The GOP presidential candidate, Barry Goldwater, intends to participate in the Miller rally, to be held Sept. 5 in Lockport, Miller's home town.

Miller told a reporter that, at the recent GOP "unity" meeting in Hershey, Pa., he told Rockefeller he would be "delighted" to have the governor at the rally. The governor said then that he would let Miller know, the candidate reported.

Last Friday, Rockefeller spoke in Niagara Falls and boomed the GOP candidates "from top to bottom." While there, he telephoned Miller at the latter's summer home in nearby Olcott to say he would be in Maine over the Labor Day weekend, Miller said.

"That's it," Miller told a reporter by telephone from his hospital room. Miller, who entered the hospital Sunday, expects to be discharged Wednesday. The check-up, his first in two years, was arranged to precede the rigors of campaigning.

## Stampede Causes Death of Horse In Moving Truck

A stampede of six horses in a moving van coming from Luther's Auction Market at Was-saick Monday night caused the death of one, injured two others and the driver, Richard Wells of Greenville.

Millbrook State Police said Wells had picked up the horses at the Wassaick auction and while proceeding home on Route 22 about 10:45 p. m., one of the horses kicked through the rear window of the truck cab and got its foot caught between the truck and the cab. The other horses stampeded and the kicking apparently killed one of the animals and injured two others, troopers said. The driver was kicked in the side but did not seek medical attention.

Delos Luther was called from the auction with another truck to calm the horses and separate them.

Troopers Jerry O'Hearn and Henry Reimer investigated the incident.

## Debts Paid in Full For Leukemia Victim

CARTERSVILLE, Ga. (AP) — Ray Chappell, the gallant teen-ager with leukemia who battled so hard to pay his medical bills, died knowing his debts were paid in full.

The 18-year-old boy died Monday in a hospital a few minutes before newsmen could present him with a bill marked "paid in full."

Chappell's family, however, told him of the news Saturday when his condition worsened.

The youth worked with a highway construction crew, but was able to earn only \$80. News stories of his plight brought in \$1,400 in money and pledges which his father, Ray Chappell, a cotton mill worker in Aragon, Ga., said would be used to pay medical expenses. What is left will be applied to the boy's funeral expenses.

THE MAN

**DEAR MAN:** He should invite them unless they are the kind of people who would be saddened by the revived memories. In any case, he should inform the parents of his late wife of his intentions to remarry. And he should do it before someone else does.

**DEAR ABBY:** My whole life changed two weeks ago when they brought my child home from the public playground and told me that he had had some kind of a "fit." We took him to the doctor immediately and, after several tests, the doctor said our son has epilepsy, but he didn't know how severe it was, or how often he would have seizures. I have cried and prayed

and spent sleepless nights. We've never had anything like this in our family before, Abby. What causes this? Is it contagious? Will he outgrow it? Can it be cured? Someone told me that in some states epileptics cannot marry, and in other states they must be "sterilized" so as not to pass this on to any children. We are afraid our doctor isn't telling us the whole truth. Please help us.

## Hollywood News, Views

By BOB THOMAS

AP Movie-Television Writer

**HOLLYWOOD (AP)**—On the matter of whether a working girl should leave home, Ann-Margret is firmly affirmative. She maintains a house for her parents and an apartment for herself to illustrate her point.

"I think every girl should live by herself as a transition between the time of being with her parents and of getting married," she said. "It is better for everyone if she does."

Does that mean that the auburn-haired, high-voltage actress is heading for a wedding? "Not at all," she replied. "But I'll be ready when it happens."

"I drop by my folks' house three or four nights for dinner," she said. "My mother is a fabulous cook, and just the sight of my own kitchen depresses me."

Aside from dinner, it's better for me to live alone. If I feel moody at 5 in the morning and want to go for a wild ride on my motorcycle, I can do it without bothering anybody. And if I want to come in late from a date, I don't have to make any explanations.

About her dates, they are exclusively with Elvis Presley. She said she goes out every night with him. Does this sound serious? You couldn't prove it by Ann-Margret. Ask her what she and Elvis do on dates and the answer comes: "Next question."

On matters concerning her private life she remains adamant. "My life is public on the screen, on the stage, in recordings and on publicity tours. But in my home, in my apartment and on dates, my life is my own. I don't knock on other people's doors. I don't expect

them to knock on mine." Her attitude netted her the sour apple award of the Hollywood Women's Press Club, which annually levels a blast at the male and female stars who do not play the publicity game according to the rules.

Ann-Margret considers it a

bum rap. She points out that she gave 130 interviews during the previous year, did numerous photo layouts and made two publicity tours in this country and one abroad. At any rate, her attitude toward publicity appears to have arrested her career not a whit. She continues to move from one film to the next and now has three awaiting release.

## Dies of Burns

ALBANY, N.Y. (AP)—James Dore, 54, a florist, of Troy, died Sunday in Albany Medical Center Hospital of burns suffered Aug. 20, when a can of fluid used to light charcoal flared up as he was preparing a barbecue in the backyard of his home.

## Hollywood News, Views

By BOB THOMAS

AP Movie-Television Writer HOLLYWOOD (AP)—On the matter of whether a working girl should leave home, Ann-Margret is firmly affirmative. She maintains a house for her parents and an apartment for herself to illustrate her point.

"I think every girl should live by herself as a transition between the time of being with her parents and of getting married," she said. "It is better for everyone if she does."

Does that mean that the auburn-haired, high-voltage actress is heading for a wedding? "Not at all," she replied. "But I'll be ready when it happens."

"I drop by my folks' house three or four nights for dinner," she said. "My mother is a fabulous cook, and just the sight of my own kitchen depresses me."

"Aside from dinner, it's better for me to live alone. If I feel moody at 5 in the morning and want to go for a wild ride on my motorcycle, I can do it without bothering anybody. And if I want to come in late from a date, I don't have to make any explanations."

About her dates. They are exclusively with Elvis Presley. She said she goes out every night with him. Does this sound serious? You couldn't prove it by Ann-Margret. Ask her what she and Elvis do on dates and the answer comes: "Next question."

On matters concerning her private life she remains adamant.

"My life is public on the screen, on the stage, in recordings and on publicity tours. But in my home, in my apartment and on dates, my life is my own. I don't knock on other people's doors. I don't expect

them to knock on mine." Her attitude netted her the sour apple award of the Hollywood Women's Press Club, which annually levels a blast at the male and female stars who do not play the publicity game according to the rules.

Ann-Margret considers it a

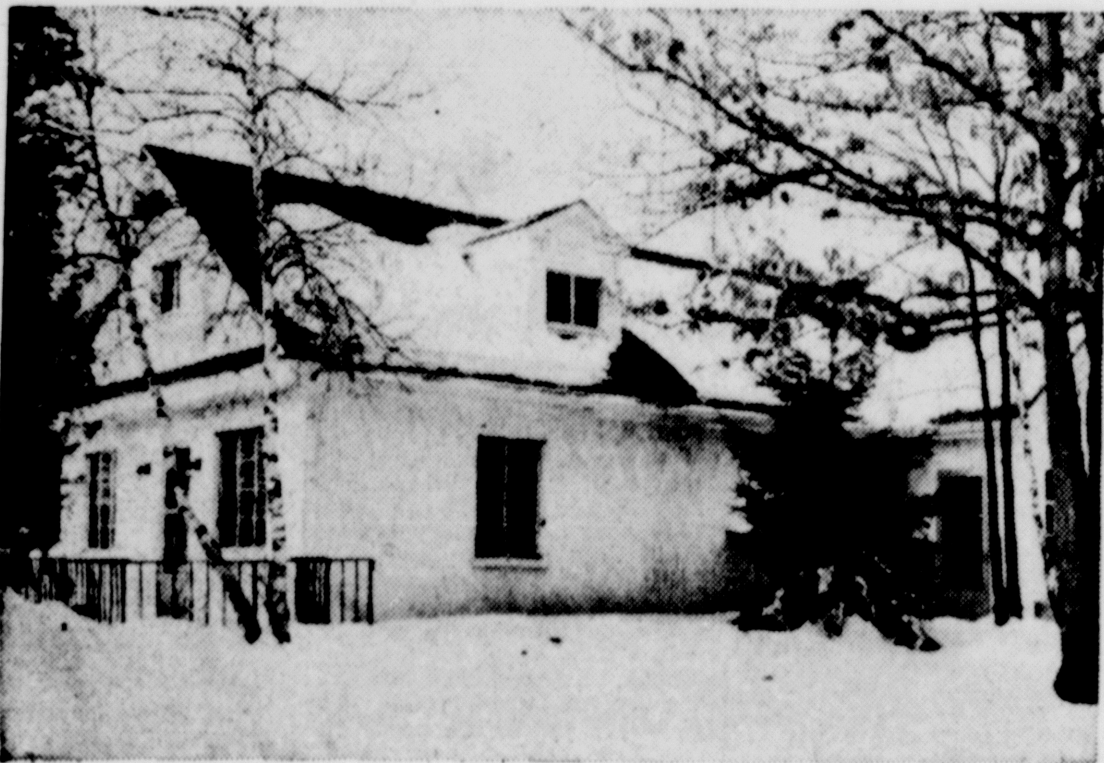

bum rap. She points out that she gave 130 interviews during the previous year, did numerous photo layouts and made two publicity tours in this country and one abroad. At any rate, her attitude toward publicity appears to have arrested her career not a whit. She continues to move from one film to the next and now has three awaiting release.

## Call Strike On Airline; Talks Fail

By JOSEPH R. COYNE  
WASHINGTON (AP) — Pan American Airways was hit early today by an AFL-CIO Transport Workers Union strike after a breakdown in negotiations aimed at averting a walkout of some 12,000 employees. A federal mediator said negotiations had reached an "insurmountable impasse."

Union members began walking off the job within an hour after negotiations between union and management leaders broke off. Picket lines were set up at Pan American bases on both coasts.

The company said in advance of the walkout that a strike probably would ground all its flights. Its planes carry about 17,000 persons daily.

The union is seeking a 15 per cent pay raise, improved vacations, a shorter work week and other fringe benefits for the maintenance, ground service

employees and flight service personnel it represents.

### 1,100 Leave JFK

About 1,100 to 1,200 employees walked off their jobs at 2:15 a.m. at New York's John F. Kennedy International Airport, the union said.

About the same time, the union called 2,500 of its members off their jobs on the Pacific Coast and Hawaii. About 150 pickets marched in Miami, the union said.

Pan America operates no domestic flights but flies to points throughout the world from New York, Miami, Chicago, Washington, Seattle, Wash., Portland, Ore., San Francisco, Los Angeles and Houston, Tex.

### No Missile Strike

The union said the 2,700 employees it represents at Cape Kennedy, Fla., would take no part in the strike. The union has a no-strike agreement with the federal government affecting missile site workers. The Cape Kennedy union members work

on launching pads, fueling missiles and on maintenance.

Also unaffected, the union said, will be charter flights for the Military Air Transport Service.

The negotiations broke down after a new offer by Pan American which the union said "wasn't very good."

### Other Demands

In addition to the wage increase, the union's demands include reduction of the work week from 40 to 37½ hours, three weeks vacation after five years service instead of the present 10 years service and improved insurance and pension benefits.

Average wages are now \$3.31 an hour for mechanics, \$2.55 for ground service personnel, \$2.83 for port stewards who handle food and other provisioning of planes and \$4.75 monthly for flight stewards, stewardesses and pursers.

The word "carol" means "dance in a ring."

PITTSBURGH (AP) — He's called the "commuter bandit" and he's driving the FBI and Pittsburgh police crazy. He came out of a month's retirement Monday to hold up the Pittsburgh National Bank's Carick Branch for \$15,000.

Law enforcement agencies are fairly certain its the same man who has taken more than \$100,000 in 10 recent holdups. They've dubbed him the commuter bandit because they think he's a suburbanite who sallies forth after careful planning, stages a holdup in the city, then retires behind a facade of respectability.

Five banks and insurance companies have offered \$25,000 in rewards.

## Aimed at Preventing Splits

## LBJ's Controlling Hand Is Plainly Seen in Platform

By JAMES MARLOW  
Associated Press News Analyst  
ATLANTIC CITY, N.J. (AP) — The Democrats have laid down, in a speech and a platform, the main lines they will pursue in the 1964 campaign.

But the platform showed the controlling hand of President Johnson, even though he was still in Washington, as much by what it left unsaid as by what it pinpointed.

It's a compromise document plainly intended to prevent party-shattering splits. Particularly it tries to avoid alienating Negroes or Southerners, city-dwellers or farmers.

Yet, the very conscious, and apparently successful search for harmony here is going to make the Democrats get — together even duller than last month's Republican convention, where the forces of Sen. Barry Goldwater completely dominated the show.

## The Main Lines

Here are those main lines voters can expect the Democrats to follow:

1. Americans never had it so good, and were never militarily so strong, as under the Kennedy-Johnson administrations. The Democrats claim the longest and strongest peacetime prosperity in our history.

2. Extremism will be a persistent Democratic target. The platform condemned it, specifically naming the Communist party, the Ku Klux Klan and the John Birch Society. Pastore said the Republicans have been taken over by reactionaries and extremists.

The Republican platform avoided repudiating extremism and, while Goldwater later said he did not want the support of the Ku Klux Klan, he did not do the same about the Birchites.

3. The platform promised new programs — such as expanded aid to education and broader health facilities, to name a couple — which would mean even broader participation of the federal government in American life.

## Basic Difference

The Republican platform promised some new programs, too, but because of its heavy emphasis on less government help and participation it is basically different from the Democratic document.

It was on some very sore subjects that the Democratic platform was most cautious. For instance, civil rights.

It promised "fair, effective enforcement" of the Civil Rights Act of 1964. This is the least it could do without alienating Negroes and Northern liberals. Because it was a minimum, it would not infuriate the South.

The best evidence that this was the language of political compromise is that Northern and Southern members of the Platform Committee acclaimed their work as a "unity" platform and a winner in November.

## No Firm Promises

It said — but didn't attempt to promise, even if the Democrats are in control — that Congress should change its rules to end filibusters after reasonable debate. The filibuster is the Southerners' main weapon against civil rights bills.

And, for the first time since World War II, the platform omitted any demand for new civil rights legislation.

Even though Goldwater voted against the 1964 civil rights bill, the Republican platform on this subject seemed a little stronger than the Democrats.

While it promised "full im-

plementation and faithful execution of the civil rights act of 1964," it went on to promise "such additional . . . legislative actions as may be required."

## Ducks Reapportionment

But the Democrats' platform entirely ducked — and here Johnson's hand was plainly at work — any mention of the problem of reapportioning state legislative districts on the basis of population.

The Supreme Court had ordered this to give all voters a more equal voice in their legislatures. It could wreck some present state political machines. There is a fight now in Congress to postpone or entirely block the court's decree.

The Democratic platform not only didn't back up the court, it never mentioned reapportionment. A Platform Committee source said Johnson had sent word he wanted no reference to the subject because in his view any position the platform took would alienate city voters or farm voters.

## Pier for WJ&amp;A

ATLANTIC CITY, N.J. (AP) —Atlantic City's first ocean pier was not an amusement pier in the strict sense. It was erected by the West Jersey and Atlantic Railroad as part of its Excursion House facilities, and was opened the same day the railroad line ran its first train into the resort, July 16, 1880.

## Central School Will Receive Safety Plaque

NEW PALTZ — New Paltz Central School will be one of 60 schools in the United States and the only school in New York State to receive a plaque for activities during the sixth National Conference on Student Traffic Safety being held at the University of Denver, Denver, Colo.

The plaques awarded each year by the Commission during the annual meeting of the National Student Safety Association (NSSA), are given to schools with high scores in six areas of safety education—organized leadership, program objectives, projects and activities, school and community participation, evaluation and future goals. Schools receiving awards are judged by their individual state departments of education which screen activity reports each spring after submission by schools conducting safety education programs. The National Student Safety Association has members in approximately 4,000 schools in all 50 states, the District of Columbia, and Puerto Rico.

James Lynch and Vernon Ronk, members of the board of directors of the National Student Safety Association, will receive the plaques at Denver and lead several discussion groups at the conference. This is James Lynch's second term of office and Vernon Ronk's first in the board of directors. Both will be seniors at New Paltz High School in September.

Some of the parents who live in the village of New Paltz and who will have children attending the Duzine School, have expressed the desire to have their children walk to the Central School and board the bus at that point rather than to wait on the corner of Main Street to board the bus.

Any parent wishing to follow this policy should express this in writing to Frederick C. Dippel, supervising principal so that arrangements may be made and the bus drivers informed. It shall be the parents responsibility to see that the child is at the designated spot at the Central School at the proper time and it is understood that if this arrangement is made it will apply for every day and not just on a time to time basis.

## Aimed at Preventing Splits

### LBJ's Controlling Hand Is Plainly Seen in Platform

By JAMES MARLOW

Associated Press News Analyst  
ATLANTIC CITY, N. J. (AP) — The Democrats have laid down, in a speech and a platform, the main lines they will pursue in the 1964 campaign.

But the platform showed the controlling hand of President Johnson, even though he was still in Washington, as much by what it left unsaid as by what it pinpointed.

It's a compromise document plainly intended to prevent party-shattering splits. Particularly it tries to avoid alienating Negroes or Southerners, city-dwellers or farmers.

Yet, the very conscious, and apparently successful search for harmony here is going to make the Democrats' get-together even duller than last month's Republican convention, where the forces of Sen. Barry Goldwater completely dominated the show.

#### The Main Lines

Here are those main lines voters can expect the Democrats to follow:

1. Americans never had it so good, and were never militarily so strong, as under the Kennedy-Johnson administrations. The Democrats claim the longest and strongest peacetime prosperity in our history.

2. Extremism will be a persistent Democratic target. The platform condemned it, specifically naming the Communist party, the Ku Klux Klan and the John Birch Society. Pastore said the Republicans have been taken over by reactionaries and extremists.

The Republican platform avoided repudiating extremism and, while Goldwater later said he did not want the support of the Ku Klux Klan, he did not do the same about the Birchites.

3. The platform promised new programs — such as expanded aid to education and broader health facilities, to name a couple — which would mean even broader participation of the federal government in American life.

#### Basic Difference

The Republican platform promised some new programs, too, but because of its heavy emphasis on less government help and participation it is basically different from the Democratic document.

It was on some very sore subjects that the Democratic platform was most cautious. For instance, civil rights.

It promised "fair, effective enforcement" of the Civil Rights Act of 1964. This is the least it could do without alienating Negroes and Northern liberals. Because it was a minimum, it would not infuriate the South.

The best evidence that this was the language of political compromise is that Northern and Southern members of the Platform Committee acclaimed their work as a "unity" platform and a winner in November.

#### No Firm Promises

It said — but didn't attempt to promise, even if the Democrats are in control — that Congress should change its rules to end filibusters after reasonable debate. The filibuster is the Southerners' main weapon against civil rights bills.

And, for the first time since World War II, the platform omitted any demand for new civil rights legislation.

Even though Goldwater voted against the 1964 civil rights bill, the Republican platform on this subject seemed a little stronger than the Democrats.

While it promised "full im-

plementation and faithful execution of the civil rights act of 1964," it went on to promise "such additional . . . legislative actions as may be required."

#### Ducks Reapportionment

But the Democrats' platform entirely ducked — and here Johnson's hand was plainly at work — any mention of the problem of reapportioning state legislative districts on the basis of population.

The Supreme Court had ordered this to give all voters a more equal voice in their legislatures. It could wreck some present state political machines. There is a fight now in Congress to postpone or entirely block the court's decree.

The Democratic platform not only didn't back up the court, it never mentioned reapportionment. A Platform Committee source said Johnson had sent word he wanted no reference to the subject because in his view any position the platform took would alienate city voters or farm voters.

#### Pier for WJ&A

ATLANTIC CITY, N. J. (AP) — Atlantic City's first ocean pier was not an amusement pier in the strict sense. It was erected by the West Jersey and Atlantic Railroad as part of its Excursion House facilities, and was opened the same day the railroad line ran its first train into the resort, July 16, 1880.

## National Air-Races to Be Held at Clearwater Sept. 12

By BILL STALL  
Associated Press Writer  
RENO, Nev. (AP)—There's a right time for everything, says stocky, blue-eyed Bill Stead, "All at once, this seems to be the right time for air racing."

Stead, 40, had been thinking about revival of the national championship air races almost since they were abandoned at Cleveland more than a decade ago. Until the past two years, he was unable to get anything more than moral support.

"Suddenly, everybody's inter-

ested," says Stead, a Reno catman and former world champion speedboat driver.

On Sept. 12, engines will roar into life at dawn at Clearwater, Fla. Souped-up World War II fighters take off for the Reno to open nine days of racing, aerobatic competition, sailplane soaring and exhibitions in the national championship air races of 1964.

The previous races folded for several reasons. Civilization was creeping in on likely racing areas and creating hazards that sometimes turned into tragic accidents. Aviation authorities tightened requirements.

Military jets began to dominate Stead adds. Then came a rule that only one jet could fly around the tight, closed pylon course at one time. The winner was determined on the basis of time.

"We've analyzed all the gripes of the old air races—not that they weren't great. But we're trying to upgrade this as much as we can."

Jets will be on the shelf at the 1964 races, for inspection and exhibition, but not for racing. This, combined with a spacious natural desert racing area, will allow seven planes to race around the 8½-mile unlimited course at once.

"These planes are going to go as fast as the jets could around this course, maybe faster," Stead says.

The race course is in Spanish Springs Valley, an early-day ranch area 15 miles northeast of Reno's tourist accommodations and casinos.

The crowd will watch from grandstands in the center of the course.

Prize money will total nearly \$50,000.

## Bill Costello Hurls 1-Hitter For 19th Win

Billy Costello pitched Armstrong-Comanches to a 3-1 victory over Subway Grill and the 1964 City Softball League Shaughnessy playoff Monday.

The A-C combination swept the series in two straight games against the 1963 champions and each time Costello turned in a strong pitching performance. During the season he racked up 19 victories.

Yesterday, he limited Subway's to just one hit—a sixth inning homer by Ronnie Cole—to gain the decision over Vince Peck and Bud (Nip) Lasher. Peck was charged with the loss.

**Get Seven Hits**  
Armstrong's picked up seven hits off Peck and Lasher, all singles, with Hobie Armstrong and Charlie Williams getting a pair each. Johnny Armstrong, Ed Kithcart and John Burris accounted for the others.

Costello walked four and fanned five. Peck had six strikeouts to go with a pair of walks.

The winners, also regular season champions, went ahead 1-0 in the second and 3-0 in the fifth.

## Pauker Second in Junior Golf

### Trails Winner By Five Shots In ENYGA Event

Wiltwyck Country Club's newest junior golf ace, Neil Pauker, fired 37-39-76 to take runnerup honors in the Eastern New York Golf Association junior championship tournament at Van Schaick in Cohoes.

Ron Philo, 17-year-old Ballston Spa CC, captured the title with a one-over par 71 on nines of 34 and 37.

Philo, who will be 18 in January, carded a front nine 34 with birdies on the par-4 fourth and eighth holes to offset a bogie-5 on the first hole. He managed only one bird on the second trip over the 9-hole layout, that coming on par-five 13th. He caught bogies on 12th and 15th, three-putting each green and another bogie at the par-four 17th where he had a bad approach shot.

Trailing Pauker by a shot were Michael Denis, Wolfert's, 38-39-77; and Dick Hedley, Roost, 38-39-77.

## F. Barthel Eliminates Boice at Twaalfskill

### The Perennial Finalist Loses On 19th Hole

BY CHARLES J. TIANO  
(Freeman Sports Editor)  
Alvin Boice, a five-time champion and finalist 13 times in the last 15 years, will be a sideline spectator when the Twaalfskill Club's men's championship is decided next Sunday.

But George Hughes, the perennial champion and defender, is still on the scene, alive and kicking. He needs a Saturday victory over either Supreme Court Justice Louis G. Bruhn or Frank Vogt to go into Sunday's 36-hole finals against the winner of the Barthel family duel between Fred and Ricky, the current Ulster County champion.

Fred Barthel, part of the new youth movement at Twaalfskill, eliminated the Old Master, Boice, 1 up in 19 holes in a first round match. He led Boice by one hole at the end of nine. Boice squared the match on the 14th and they halved the next three. Either could have won it with a par on the 18th but both settled for bogie-5's.

On the par-4 first extra hole, Boice's pitch shot just made the green several feet from the cup. He needed three putts to get down while Barthel, on in two got his par 4 to close out the match.

Hughes, meanwhile, drew a first round bye and then eliminated Dick Overbagh, 4 and 3, Ricky Barthel won by default from William Merrill Jr. in the first round then defeated veteran Clarence Raichle, 5 and 4. His brother, Fred, scored a second round 2 to 1 victory over Robert Carnright after eliminating Boice.

## Superb Record

Boice has been eliminated this year and may have come to the end of the trail, but the record book is full of glowing testimony to his superb skills over the years.

Up to 1963, he had captured the Twaalfskill title five times in 1949, 1950, 1952, 1954 and 1958, and was club finalist 13 times. He won the city playoff title three times, in 1949, 1952 and 1954 and also competed in 1950 and 1958.

The championship flight:  
First Round  
Robert Carnright over John Provenzano, default; Fred Barthel over Alvin Boice, 1 up, 19 holes; Ricky Barthel over William Merrill Jr., default; Clarence Raichle, bye.  
George Hughes, bye; Richard Overbagh over Form Coughlin, default; Frank Vogt over Clary Buddenhagen, 3 and 2; Justice Louis G. Bruhn over Charles H. Gaffney, default.

## Second Round

F. Barthel over Carnright, 2 and 1; R. Barthel over Raichle, 5 and 4; Hughes over Overbagh, 4 and 3; Vogt vs. Justice Bruhn (to be played).

## 8-6 Victory Over Elks Sets Stage For Playoff Tilt

The 35 Club staged two late rallies to edge Elks Lodge, 8 to 6, and tie Hurley for the lead in the American division of the Babe Ruth League with records of 9 wins and 6 losses each.

The teams meet in a single game playoff for the championship Thursday at 6 p. m. at Dietz Stadium. The winning team will meet the Knights of Columbus, National winners (11-3) for the 1964 league championship.

It was a typical Babe Ruth League performance with both teams overcoming the lack of hits. Paul Koepen of the 35 Club limited the Elks to three hits and rapped one of the key hits of the contest—a line drive home run in the sixth inning.

The other crucial hit was a bases-loaded single by Mike Milano in the fifth inning for the winners.

The 35 Club	9	6

Koepen added a single to his homer and on the pitching mound fanned 9 and walked seven to win over Charles Lay, who kept himself in constant trouble with 12 walks. He struck out eight.

Dennis Ahearn hit a double for the 35 Club. The three Elks singles off Koepen went to Frank Rahm, Len Helmich and Oscar Jones. James Cronin hit one for the winners.

On Sept. 12, engines will roar into life at dawn at Clearwater, Fla. Souped-up World War II fighters take off for the Reno to open nine days of racing, aerobatic competition, sailplane soaring and exhibitions in the national championship air races of 1964.

The previous races folded for several reasons. Civilization was creeping in on likely racing areas and creating hazards that sometimes turned into tragic accidents. Aviation authorities tightened requirements.

Military jets began to dominate, Stead adds. Then came a rule that only one jet could fly around the tight, closed pylon course at one time. The winner was determined on the basis of time.

"We've analyzed all the gripes of the old air races — not that they weren't great. But we're trying to upgrade this as much as we can."

Jets will be on the shelf at the 1964 races — for inspection and exhibition, but not for racing. This, combined with a spacious, natural desert racing area, will allow seven planes to race around the 8½-mile unlimited course at once.

"These planes are going to go as fast as the jets could around this course, maybe faster," Stead says.

The race course is in Spanish Springs Valley, an early-day ranch area 15 miles northeast of Reno's tourist accommodations and casinos.

The crowd will watch from grandstands in the center of the course.

Prize money will total nearly \$50,000.

## Bill Costello Hurls 1-Hitter For 19th Win

Billy Costello pitched Armstrong-Comanches's to a 3-1 victory over Subway Grill and the 1964 City Softball League Shaughnessy playoff Monday.

The A-C combination swept the series in two straight games against the 1963 champions and each time Costello turned in a strong pitching performance. During the season he racked up 19 victories.

Yesterday, he limited Subway's to just one hit—a sixth inning homer by Ronnie Cole—to gain the decision over Vince Peck and Bud (Nip) Lasher. Peck was charged with the loss.

Get Seven Hits  
Armstrong's picked up seven hits off Peck and Lasher, all singles, with Hobie Armstrong and Charlie Williams getting a pair each. Johnny Armstrong, Ed Kithcart and John Burris accounted for the others.

Costello walked four and fanned five. Peck had six strikeouts to go with a pair of walks. The winners, also regular season champions, went ahead 1-0 in the second and 3-0 in the fifth.

## \*8-6 Victory Over Elks Sets Stage For Playoff Tilt

The 35 Club staged two late rallies to edge Elks Lodge, 8 to 6, and tie Hurley for the lead in the American division of the Babe Ruth League with records of 9 wins and 6 losses each.

The teams meet in a single game playoff for the championship Thursday at 6 p. m. at Dietz Stadium. The winning team will meet the Knights of Columbus, National winners (11-3) for the 1964 league championship.

It was a typical Babe Ruth League performance with both teams overcoming the lack of hits. Paul Koeppen of the 35 Club limited the Elks to three hits and rapped one of the key hits of the contest—a line drive home run in the sixth inning.

The other crucial hit was a bases-loaded single by Mike Milano in the fifth inning for the winners.

Koeppen added a single to his homer and on the pitching mound fanned 9 and walked seven to win over Charles Lay, who kept himself in constant trouble with 12 walks. He struck out eight.

Dennis Ahearn hit a double for the 35 Club. The three Elks singles off Koeppen went to Frank Rahm, Len Helmich and Oscar Jones. James Cronin hit one for the winners.

## Trails Winner By Five Shots In ENYGA Event

Wiltwyck Country Club's newest junior golf ace, Neil Pauker, fired 37-39-76 to take runnerup honors in the Eastern New York Golf Association junior championship tournament at Van Schaick in Cohoes.

He managed only one bird on the second trip over the 9-hole layout, that coming on par-five 13th. He caught bogies on 12th and 15th, three-putting each green and another bogie at the par-four 17th where he had a bad approach shot.

## Rutyna Would Represent Poland

By ED D'MOCH  
Associated Press Writer  
CHICAGO (AP) — A young walker of championship caliber, who cannot compete for the United States because he lacks full citizenship, said today he wants to represent his native Poland at the Olympic games in Japan.

"I have thought out my problem very carefully," Matt Rutyna told an interviewer, "and I've decided that I just have to compete in the Olympics this year or I never will."

"For this reason, I have written the Polish Athletic Union and asked if I can compete for Poland in 1964."

Rutyna is 33 and unmarried. He came to the United States in 1959 and recently obtained his first citizenship papers. His full citizenship, when granted, will come in 1969.

Under rules governing the U.S. Olympic trials for the 50-kilometer race walk to be held Sept. 5 in Seattle, "the first three citizens of the United States who finish the distance" will represent this country in Tokyo.

The lean, muscular walker has been competing in this country since about a month after he came to Chicago in 1959 on a student visa. Though an act of Congress, brought by U.S. Rep. Roman Pucinski, D-Ill., Rutyna was permitted to remain in the United States when his visa expired.

He won 12 of his first 16 races at distances of three miles and more. Two weeks ago, he was timed in an unofficial 100-mile race in an unofficial 4 hours, 25 minutes and 15 seconds for 50 kilometers.

## Braves' Phenom

## Rico Carty Clobbers The Phils

By MIKE RATHET  
Associated Press Sports Writer

Rico Carty of the Milwaukee Braves admits he was a bit over-anxious about breaking into organized baseball.

He signed with just about every club in the Dominican Republic. And with San Francisco, And Cincinnati. And he had his runaway pen in hand, ready to sign with St. Louis, when Milwaukee protested.

But the Braves haven't protested since.

A 24-year-old outfielder making a bid for Rookie of the Year honors in the National League, Carty slammed five straight hits — a homer, three doubles and a single — as the Braves walloped the first-place Philadelphia Phillies 12-9 Monday night.

Carty has hit like that in the Braves' chain ever since they took his ink well away from appealing to the late George Trautman, then the president of the minors.

Seems that Carty — "I was just a kid and I didn't realize what I was doing" — had signed with the Estrellas club in the Dominican Republic before walloping his pen for the Giants and Reds. The Estrellas club had sold Carty to the Braves.

Average to 323

Against the Phillies, Carty doubled in the first, singled in the second, homered in the fourth and doubled in the fifth and the seventh, lifting his average from .312 to .323 with the spurt while bringing his home run output to 13 and his runs batted in total to 56.

The loss trimmed the Phillies' lead to 6½ games over the San Francisco Giants, who broke a tie for second place with Cincinnati by defeating the Los Angeles Dodgers 4-2. In other NL action, St. Louis whipped Pittsburgh 5-1 and Houston blanked the Chicago Cubs 2-0.

The Chicago White Sox, meanwhile, lost an opportunity to gain ground on American League-leading Baltimore, falling to two games behind the Orioles after a 4-3 loss to Minnesota in the only game on the schedule.

Carty led a 16-hit Milwaukee attack against five Philadelphia pitchers. Hank Aaron chipped in with his 22nd homer and three runs batted in while Eddie Mathews collected three hits.

Wes Covington supplied most of the fireworks for the Phillies, driving in six runs with two homers and a pair of doubles. Clay Dalrymple also homered for Philadelphia.

Giants Win Early

The Giants put it away against the Dodgers in the first inning with a four-run outburst helped along by Tommy Davis' error on a Willie Mays liner, a grounder by Orlando Cepeda and a home run by Jim Hargrett.

The Dodgers scored their only runs in the first on a homer by Willie Davis, then were shut out the rest of the way by Jim Dufalo. Dufalo, who hadn't pitched a complete game since his first major league start in 1961, allowed only six hits.

The Twins scored twice in the second inning against the White Sox with the aid of an error by Al Weis, and added two more in the third on singles by Rich Rollins, Tony Oliva and Zoilo Versalles. Then they held on as the White Sox muffed their opportunities.

The White Sox had the potential tying runs on in the sixth, but Jim Kaat picked Don Buford off first to end the inning. Chicago then closed to within one run in the eighth, but reliever Al Worthington got Moose Skowron and Buford on short files with the tying run on third.

Bill White hit a two-run homer for the Cardinals in the eighth and Ken Boyer followed with another homer, taking the pressure off Bob Gibson. Gibson was working on a 2-1 lead at that point and wound up with a six-hitter while striking out 12.

Pitcher Bob Bruce, who allowed only two hits, got the Colts winning rally started in the eighth inning with a single off Lou Burdette. Walt Bond's single and an error on the play by Billy Williams let both runs score. Hal Woodeshick pitched the ninth for Houston after Bruce hurt his back.

Mrs. Grimes Dies

TRENTON, Mo. (AP) — Mrs. Burleigh Grimes, 56, wife of the Hall of Fame baseball pitcher, died of a heart attack Monday at the family farm four miles southwest of Trenton. She had not been ill prior to the attack.

Her husband, named to the Hall of Fame last year, is a scout for the Baltimore Orioles.

Owner Arthur Allyn Jr. of the Chicago White Sox, who wasn't at the happy about the way the Yankees were sold to CBS with the approval of Ford Frick, has some strong ideas on what kind of man baseball's new commissioner should be.

"I don't want a politician," says Allyn. "I'm not interested in a lawyer. He shouldn't be anybody currently in baseball. And I don't endorse Bill Veck. . . . But he should be a real strong personality."

Allyn, 41, is a former player and manager. He was with the Yankees from 1934 to 1941. He was with the White Sox from 1941 to 1946. He was with the Chicago White Sox from 1946 to 1951. ## Rutyna Would Represent Poland

By ED D'MOCH Associated Press Writer

CHICAGO (AP) — A young walker of championship caliber, who cannot compete for the United States because he lacks full citizenship, said today he wants to represent his native Poland at the Olympic games in Japan.

"I have thought out my problem very carefully," Matt Rutyna told an interviewer, "and I've decided that I just have to compete in the Olympics this year or I never will."

"For this reason, I have written the Polish Athletic Union and asked if I can compete for Poland in Japan."

Rutyna is 33 and unmarried. He came to the United States in 1959 and recently obtained his first citizenship papers. His full citizenship, when granted, will come in 1969.

Under rules governing the U.S. Olympic trials for the 50 kilometer race walk to be held Sept. 5 in Seattle, "the first three citizens of the United States who finish the distance" will represent this country in Tokyo.

The lean, muscular walker has been competing in this country since about a month after he came to Chicago in 1959 on a student visa. Though an act of Congress, brought by U.S. Rep. Roman Pucinski, D-Ill., Rutyna was permitted to remain in the United States when his visa expired.

He won 12 of his first 16 races at distances of three miles and more. Two weeks ago, he was timed in an unofficial 4 hours, 25 minutes and 15 seconds for 50 kilometers.

## Braves' Phenom

## Rico Carty Clobbers The Phils

By MIKE RATHET Associated Press Sports Writer

Rico Carty of the Milwaukee Braves admits he was a bit over-anxious about breaking into organized baseball.

He signed with just about every club in the Dominican Republic. And with San Francisco, And Cincinnati. And he had his runaway pen in hand, ready to sign with St. Louis, when Milwaukee protested.

But the Braves haven't protested since.

A 24-year-old outfielder making a bid for Rookie of the Year honors in the National League, Carty slammed five straight hits — a homer, three doubles and a single — as the Braves walloped the first-place Philadelphia Phillies 12-9 Monday night.

Carty has hit like that in the Braves' chain ever since they took his ink well away by appealing to the late George Trautman, then the president of the minors.

Seems that Carty — "I was just a kid and I didn't realize what I was doing" — had signed with the Estrellas club in the Dominican Republic before wielding his pen for the Giants and Reds. The Estrellas club had sold Carty to the Braves.

Average to .323

Against the Phillies, Carty doubled in the first, singled in the second, homered in the fourth and doubled in the fifth and the seventh, lifting his average from .312 to .323 with the spurt while bringing his home run output to 13 and his runs batted in total to 56.

The loss trimmed the Phillies' lead to 6½ games over the San Francisco Giants, who broke a tie for second place with Cincinnati by defeating the Los Angeles Dodgers 4-2. In other NL action, St. Louis whipped Pittsburgh 5-1 and Houston blanked the Chicago Cubs 2-0.

The Chicago White Sox, meanwhile, lost an opportunity to gain ground on American League-leading Baltimore, falling two games behind the Orioles after a 4-3 loss to Minnesota in the only game on the schedule.

Carty led a 16-hit Milwaukee attack against five Philadelphia pitchers. Hanover chipped in with his 22nd homer and three runs batted in while Eddie Mathews collected three hits.

Wes Covington supplied most of the fireworks for the Phillies, driving in six runs with two homers and a pair of doubles. Clay Dalrymple also homered for Philadelphia.

Giants Win Early

The Giants put it away against the Dodgers in the first inning with a four-run outburst helped along by Tommy Davis' error on a Willie Mays liner. That produced one run, a grounder by Orlando Cepeda drove in the second and Jim Hart finished things up with a two-run homer.

The Dodgers scored their only run in the first on a homer by Willie Davis, then were shut out the rest of the way by Jim Duffalo. Duffalo, who hadn't pitched a complete game since his first major league start in 1961, allowed only six hits.

The Twins scored twice in the second inning against the White Sox with the aid of an error by Al Wei, and added two more in the third on singles by Rich Rollins, Tony Oliva and Zoilo Versalles. Then they held on as the White Sox muffed their opportunities.

The White Sox had the potential tying runs on in the sixth, but Jim Kaat picked Don Buford off first to end the inning. Chicago then closed to within one run in the eighth, but reliever Al Worthington got Moose Skowron and Buford on short flies with the tying run on third.

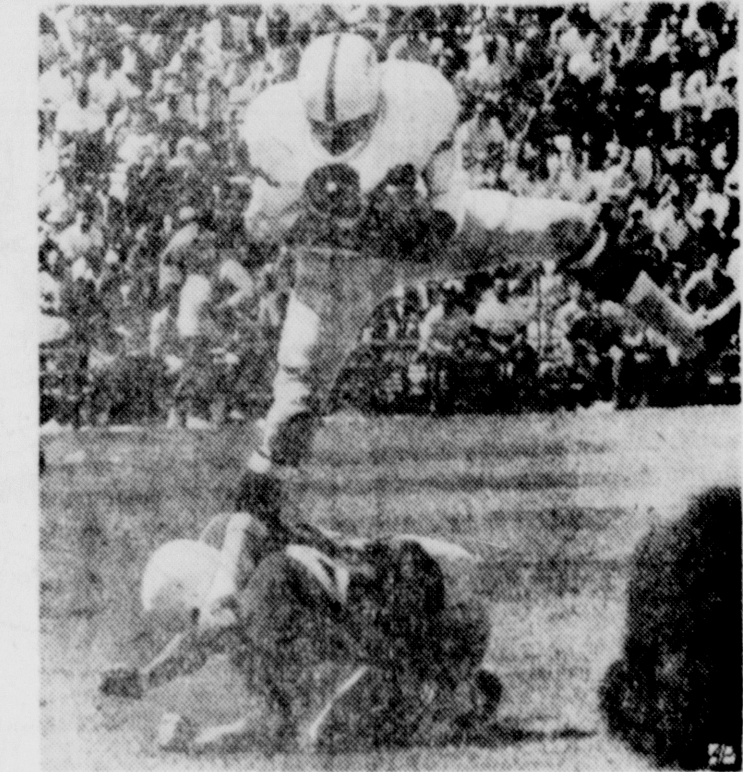

Bill White hit a two-run homer for the Cardinals in the eighth and Ken Boyer followed with another homer, taking the pressure off Bob Gibson. Gibson was working on a 2-1 lead at that point and wound up with a six-hitter while striking out 12.

Pitcher Bob Bruce, who allowed only two hits, got the Cubs winning rally started in the eighth inning with a single off Lou Burdette. Walt Bond's single and an error on the play by Billy Williams let both runs score. Hal Woodeshick pitched the ninth for Houston after Bruce hurt his back.

Mrs. Grimes Dies

TRENTON, Mo. (AP) — Mrs. Burleigh Grimes, 56 wife of the Hall of Fame baseball pitcher, died of a heart attack Monday at the family farm four miles southwest of Trenton. She had not been ill prior to the attack.

Her husband, named to the Hall of Fame last year, is a scout for the Baltimore Orioles.

Ah, the sporting gentry of Saratoga. Hill Rise, the nervous colt from California, gets skittish when too many people are around to watch him work out (reminds me of some bailplayers I know), so trainer Bill Finnegan arranged to have him run mornings on Jack Whitney's private track. Though Whitney himself has Malicious running against Hill Rise in the Travers Stakes. . . .

Roger Maris is bent on preserving the image. He has filed suit for a cool half a million against UPI for defamation of character. And even the Yankee front office is reported angry at him because he didn't clear it through them. . . .

Owner Arthur Allyn of the Chicago White Sox, who wasn't at all happy about the way the Yankees were sold to CBS with the approval of Ford Frick, has some strong ideas on what kind of man baseball's new commissioner should be. . . .

"I don't want a politician," says Allyn. "I'm not interested in a lawyer. He shouldn't be anybody currently in baseball. And I don't endorse Bill Veck. . . . But he should be a real strong personality." . . . Maybe somebody like Jack Paar, huh? . . .

Poor Mets just can't win 'em all. They had just beaten the Pirates, 3-2, in a game canceled in the eighth because of rain when a gambler lamented, "Even when the Mets win and you got 'em, you can't collect." (It takes a nine-inning game to make the unofficial wager official.) . . .

Tony Lema, caught at Knickerbocker in Tenny, N. J., in an exhibition match with Gary Player, said he'd like to play about 25 of those fun things a year. And why not? He gets \$2,500 for Saturdays or Sundays and \$2,000 for a week-day outing. . . . Know what Arnold Palmer's scale is? \$5,000 for a weekend round, \$3,500 during the week. . . . Incidentally, Champagne Tony's favorite beverage is not the bubbly, but a light blend of Scotch.

On the hustling Phillies, even the coaches hit the dirt. At least, every time George Myatt, in the third base box, signals a runner to slide, the old flash of the base paths hits the ground with him, sort of a sympathetic reaction. . . .

Sandy Koufax apparently has an insatiable desire to improve. Now he has added a fork ball to his pitching repertoire. . . . He's been hitting against Ed Roy one day when the Pirate reliever slipped the fork delivery by him for a strikeout. Sandy liked what he saw so much that he practiced the pitch and the other day tried it on dangerous Henry Aaron. Got the Brave slugging to pop up, too, in a crucial situation. . . .

The infielders on the Baltimore Orioles never come to the mound for words of encouragement when Wally Bunker is pitching. . . . "He's usually in a position," Bob Johnson said, "where you don't have to go out and talk to him." . . .

The tennis maturity of young (17) Cliff Richey can be attributed to Ham Richardson, the former amateur champ who's no longer on the regular racket trail. Cliff works out regularly with Ham back home in Dallas, Tex., and claims, "Playing with him gives me as much experience as a full year on the Eastern grass court circuit." . . .

The improvement in Cookie Rojas, the all-around utility man of the Philadelphia Phillies (he can and has played eight positions in the majors), is no accident. Right now he goes around with a can of nutty putty (kid's stuff) in his hand, and squeezes it regularly to build up the wrists he jammed in a collision with an outfield wall. . . .

Between you'n'me, halfback Tom Matte has completed a successful skin transplant for what was diagnosed as a possible malignant growth on his nose. . . .

## One Better Has \$34,047 Twin D

MONTICELLO—An unknown better is \$34,047.60 richer to-night after correctly picking four races in the twin double at Monticello Raceway.

The payoff is the second largest of the season at the track, topped only by the record breaking \$52,322.60 won by a Poughkeepsie woman on August 8th.

The huge twin began with a \$34.00 payoff on Chuckie Byrd, winner of the fifth race, Stag Dancer (\$10.90) won the sixth, Cousin Kate (\$10.20) the seventh and Fingo's Boy (\$6.80) the eighth.

Watch Key, the even money choice in the eighth race, was third. If Watch Key had won, the twin double would have been \$3,085.20, the smallest on the board.

## Block Defeats Hutton, 59-25

Block Park trounced Hutton Park, 59-25, and Cornell Park won over Hooper's, 59-48, in Summer Junior basketball league action.

High scorers included Wally Lucas 28, Vince Fisher 21, Wayne Corkery 17.

The results: Hutton (25)—Monte Rios 2, Greg Myers, Rich Cole 2, Bob Milham 9, Don Cashdollar 6, Dom Ausasio 6, Gary Schoonmaker.

Block (59)—Wayne Corkery 17, Dennis Klonowski 13, Tim Bowens 8, Phil Davis 2, Al Alcon 6, Mike Derrenmacher 13.

Hooper's (49)—Jim Williams 10, Vince Fisher 21, George Barnes 2, Tim O'Reilly 4, Wally Skop 4, Jim Henry 2, Rich Smith 4.

## Linda Leader Is Medalist

A 2-over women's par 76 gave Miss Linda Leader of Mohawk medalist honors in the qualifying round of the Northeastern Women's Golf Association championship tournament Monday at Stockbridge (Mass.) CC.

In a surprise development, Miss Sylvia Maury of Edison posted a 95 and failed to make the championship flight by a stroke. The cutoff for the low 16 scorers was 94.

The tournament marked the first time the defending champion was not automatically qualified. Miss Leader, who recently retained her title at Mohawk, carded nines of 39 and 37.

## Returns Are Big In N.Y. State Harness Racing

By THE ASSOCIATED PRESS

Unbeaten Rivaltime won the \$26,679 Dan Patch Pace Monday night at Roosevelt Raceway and covered the mile in 2:01 1-5, a record for 2-year-old pacers at the Long Island oval. The former mark was 2:02 1-5, set in 1962 by Steady Beau.

The winner took the lead at the half and held on for a three-quarter-length victory. Gee Lee Hanover placed and Bobby T. Knight showed.

Rivaltime, the heavy favorite, returned \$3.30.

At the Monticello harness race track, a single, unidentified bettor won a whopping \$34,047.60 in the twin-double, the second highest payoff of the season at the course. A Poughkeepsie woman was paid the top price of \$52,322 Aug. 8.

The winning combination Monday night was 7-3-2-6—that is, Chuckie Byrd, Star Dancer, Cousin Kate and Fingo's Boy.

In action at other harness tracks in New York State: Saratoga Raceway — Dama's Milk Man (\$2.80) took the \$2,275 Cobleskill Fair division of the New York Sires Stakes for 2-year-old trotters. Moon Shooter was second and Hicci Hi showed. The winner's time was 2:11 3-5.

Vernon Downs — Targeteer (\$3.70) came on late and won by a head in the \$1,300 conditioned pace in 2:02. Deep Run Byrd was second and Eria's Girl third.

Batavia Downs — Largo Hanover (\$5.80) scored a half-length decision in the \$1,500 conditioned pace. Lorie Gil Roe placed and Pine Ridge Danny was third. The time was 2:05 4-5.

The Monticello feature was a \$2,000 invitational trot, won by Nevele Gourmet (\$12) in 2:06. Dancing Demon finished three-quarters of a length behind. Regal Rodney was third.

## Beat English. Now One-Third Way to Goal

By THE ASSOCIATED PRESS

CHESNUT HILL, Mass. (AP) — Dennis Ralston and Chuck McKinley, the young men who returned the United States to world tennis supremacy, are one-third of the way home toward an impossible goal.

"Mission one-third accomplished," shouted the 22-year-old Ralston after he and McKinley had demolished the English duo of Mike Sangster and Graham Stillwell 6-3, 6-2, 6-4 Monday and captured their third National Doubles Tennis Championship.

"Our goals for the summer," Ralston said, "have been to win the national doubles and retire the cups. Then Forest Hills."

That's where the quest becomes impossible. "Naturally we can't both win the singles, but we'll both be trying," Ralston said. "One of us should win it."

"Then here's the Davis Cup. We've got to show that it was no fluke in Australia, by keeping it."

McKinley, 23, and Ralston, 22-year-old Southern California student, were the key factors in the United States' Davis Cup triumph a year ago and are the principal figures in the defense against the winner of the Sweden-Australia interzone match in Cleveland next month.

The ease with which they dispatched the Britons—the first English pair to reach the finals since 1903—indicated they were ready. Neither lost his serve or was in danger of doing so.

It was the third doubles championship for the two—previous victories came in 1961 and 1963—and retired the silver bowl emblematic of the championship. The last duo to win three were Bill Talbert and Gardner Mulloy, who won their third title in 1946.

"Denny and I are at the top of our games," said McKinley, who plays out of San Antonio, Tex.

Their doubles triumph, engineered in just 50 minutes, completed a sweep of the titles for the United States and marked the first time in 10 years it had been accomplished.

The sweep was set up when the California duo of Billie Jean Moffitt, of Long Beach and Mrs. Karen Hantze-Susman of San Diego upset top-seeded Australians Margaret Smith and Lesley Turner 2-6, 6-2, 6-4 for the women's title.

## Lee Can Lead Us, Says Denver Broncos Coach

By JACK HAND Associated Press Sports Writer

FORT COLLINS, Colo. (AP) — Whether it's for two years or whether it's forever, Jack Lee is a sight for sore eyes in Denver, Jack Faulkner, the Broncos' coach, is like a kid with a new toy.

"I'll take Lee anyway I can get him," said Faulkner. "In this business you go along from year to year. Who knows? After two years maybe we can get him away from them anyway. I'm not going to worry about two years from now."

Lee, the No. 2 quarterback behind George Blanda at Houston, recently was sent to Denver on a two-year loan with the understanding he is to be turned back to the Oilers at that time.

A wee lad, too small to understand the reasons for good manners, asked thoughtfully one morning:

WEE LAD — Mamma, when Professor Smythe passes a lady on the sidewalk, what does he take off his hat and show her his bald head for?

The biggest fish are caught by the tale.

Conscience: guilt-edged insecurities.

Wise men talk because they have something to say, fools because they would like to say something.

For years the wife of a Scot, wealthy but stingy, had pestered him for a trip to California, where they had relatives. Finally he consented that she make the trip.

Shortly after arriving on the Pacific Coast she became the

victim of a tragic accident and was drowned. A relative thereupon sent the following cable to her husband: Wife drowned in accident here today. Body recovered, adhering to which was specimen of very rare fish for which the Biological Society has offered ten thousand dollars. Wire instruction.

The Aberdorian replied, "Accept offer and reset bait."

There are some bad qualities which make great talents.

A man in North Carolina, accused of horse-stealing, was saved from conviction by the powerful plea of his lawyer. After his acquittal by the jury, the lawyer took him aside, and asked smilingly:

Lawyer — Honor bright, now, Bill, you did steal that horse, didn't you?

Bill — Now, look a-here, Judge, I allers did think I stole that horse. But since I hear yore speech to the jury, I'll be dog-goned if I ain't got my doubts about it.

There is nothing more terrifying than ignorance in action.

A yawn is at least an honest opinion.

"Doesn't the international situation seem awfully monotonous?"

## Commentator's Impressions of Democrat Parley

By CYNTHIA LOWRY

AP Television-Radio Writer HOLLYWOOD (AP) — CBS' high command must be disappointed today if it was looking for jokes and snappy patter from its new convention-covering team of Robert Trout and Roger Mudd.

The successors to Walter Cronkite, making their debuts in the key positions on the CBS team, proved earnest, proficient, highly professional. But sprightly? No.

During the 90 minutes before the convention was gavelled to order, their main jobs were handling the news traffic and saying, "and now let's go down to the floor and our correspondent."

The floor reporters of all networks, who looked like perspiring Martians in their electronic rigs, were like terriers worrying a bone as they concentrated on the only two subjects fraught with any suspense at all: the Alabama and Mississippi seating fights and the mystery of President Johnson's choice of a vice presidential nominee. After a while, repetition of questions and evasive answers began to pall.

CBS' department of wit and

humor was headed by Eric Sevareid, whose occasional thoughts are clarifying, down-to-earth and whose remarks are often funny. Harry Reasoner, too, struck light notes adroitly.

ABC, in its effort to add some leavening to the sober-sided and intelligent coverage of Howard K. Smith and Edward P. Morgan introduced comedian George Gobel as a political commentator but Lonesome George must have gotten his signals mixed. He interviewed the convention hall's lady organizer. His commercials are funnier.

Huntley and Brinkley, the ratings champs, headed NBC's smooth, well-organized coverage. Brinkley's greatest talent is his ability to pull together unusual, unexpected bits of information.

The networks are so highly competitive, scurrying around frantically interviewing every public figure in sight, that viewers sometimes feel they are missing the convention itself. Monday night the speeches of New Jersey's Gov. Richard Hughes and Sen. Harrison A. Williams Jr. were largely ignored by all three networks and two of them skipped the opening prayer and flag ceremonies.

It is estimated that one-fifth of the people of the United States move from one place to another in a year's time.
